RE: Tucson Electric Power's 2016 Demand Side Management Plan, E-01933A-15-0178

Dear Chairman and Commissioners,

Pima County Interfaith's Green Economic Team represents over 25 congregations and institutions in the Tucson area.

We support approval of the Tucson Electric Power's (TEP) 2016 Demand Side Management plan. If approved the plan will continue existing energy efficiency programs that keep energy costs low for everyone, support local jobs, and boost Tucson's economy. The plan will also ensure that a greater number and more diverse set of customers have opportunities to save money and energy, including small businesses, low-income residents and families, renters, and schools. Approval of this plan is particularly important in light of TEP's pending rate case, as it will provide Tucsonans with more tools to manage higher energy bills.

Thank you for the support you have shown in the past for energy-saving programs for Tucson families and businesses.

Sincerely,

Hank Krzysik, AIA  
Our Mother of Sorrows
