DATE PREPARED: February 1, 2016

COMPANY: Tucson Electric Power Company AGENDA ITEM NO. 15

DOCKET NO(S). E-01933A-15-0178 OPEN MEETING DATE: February 2, 2016

*The proposed amendment would help to support timely and effective consideration of Demand Side Management (DSM) Plans in order to support programs and measures that are responsive to market conditions and customer demand, and/or support the deployment of cost-effective emerging technologies, which have been previously reviewed and approved by the Commission.*

*The Commission unanimously approved this same language for UNS Electric and Arizona Public Service Company when it approved those utilities' DSM plans in October and November of last year, respectively.*

INSERT: New Ordering Paragraphs

“IT IS FURTHER ORDERED that Tucson Electric Power Company has the flexibility to offer cost-effective energy efficiency measures approved by the Commission for one specific Tucson Electric Power Company program in any of its other Commission-approved programs so long as the measures would remain cost-effective when offered in those other programs, and its overall demand side management budget would not be increased. Tucson Electric Power Company should file documentation with the Commission demonstrating that the measure would remain cost-effective and its overall demand side management budget would not be increased. The Tucson Electric Power Company proposal would be effective in 45 days unless Staff or other stakeholders act to oppose the proposal and seek further Commission review.”
