Re: Woodruff Utility Company, Inc.
Decision #68453, Docket #SW-04265A-04-0439 W-04264A-04-0438

To Whom It May Concern: W-01445A-04-0755

Pursuant to the above referenced decision, Woodruff Utility Company, Inc. is requesting an amendment to the compliance requirements, such that progress toward the use of effluent need not be filed until project development commences.

Woodruff Utility Company, Inc. was originally formed to provide wastewater treatment services to a 3,200 acre, master-planned subdivision, to be known as Sandia. In late 2009, ownership and management for the entities owning the property for the community, as well as the wastewater treatment company, was transferred by the original developer. Given the current economic state and lack of demand for a new residential development, there are no plans to develop the community any time in the near future, nor will the facility become operational in the near future.

If the Commission doesn't feel a compliance amendment is in order, Woodruff Utility Company, Inc. respectfully requests a five-year extension to submit a progress report toward the use of effluent.

Please feel free to contact me if you have any questions or need additional information.

Sincerely,

Jon P. Coulter
V.P./Director of Development
