RE: Arizona Windsong Water Company Inc.

I surely hope someone is listening because the constitution says I have rights for this is the United States of America and I am quite sure Arizona is listed among the 50 states. In our small local newspaper, an article had written that there is lead in the drinking water at Flint, Michigan and once in the body system, it is difficult to remove it. I feel for that city for we are also in dire need for assistance when we have chemicals in our drinking water and the company refuses to take our concerns seriously.

Varies water tests focus on Park Estates has been the topic in our daily discussion who are living in Sanders, AZ. That was "my" grievance in the very beginning. Your office should be concern about this for it affects the schoolchildren here, the residents that live here who pay taxes and votes in the Apache County. In the past years, the convenience store was an Arizona Windsong Water Company Inc. biggest payroll;

Arizona Corporation Commission Utilities Complaint Form

however, they could not put up with the water company's harassment so the store had drilled their own water well. Now, that REALLY upset the owner of the water company. It is not enough that we are struggling with day-to-day expenses, but this water company is still dangling "the water rights document" in front of us and continues to use this excuse to bully anyone who attempts to take over the business. For years, this company had cheated us (money that was overpaid) and the company will probably never going to pay for the countless laws that it has broken or the senseless problems that it had caused us. Sorry to say, we are still paying for contaminated "drinking" water here in this rural area. Our essential water supply (Gallup, NM, Holbrook, AZ, & St. Johns, AZ) that we haul from is in the radius of 50 miles which "is nothing more than an added imprisonment to the aggravation".

Nonetheless, still "hoping and praying" for NTUA to "TAKE OVER" the Arizona Windsong Water Company Inc. and that this company "never" operates a business again.
