Nature Of Opinion

Docket Number: E-01933A-15-0322 **Docket Position:** Against

My wife and I ask that the ACC please deny the request of TEP for a 12% increase in revenue. This is to help pay for what? Increased dividend for the investors, whose current return on investment is over 10%? Looks like the ONLY way to get that kind of return today is in monopoly companies. A 12% increase in cost for those of us who have no place else to go for electricity is coming close to legalized theft, much like government. On top of that, solar users are being subsidized by the rest of us. It's past time to stop this transfer of wealth. Must be nice to increase revenue. There is little most folks can do to increase revenue to cover increased fixed (or variable) costs, including the cost of electricity. Again, please deny this request.
