Docket #04204A-15-0142  
Re UNS rat case

2016 MAR -1 A 11: 31

AZ CORP COMMISSION  
DOCKET CONTROL

Dear Chairman Little:

As an electricity ratepayer in Arizona I am opposed to additional mandatory fees which have been proposed by UNS Electric in their rate case. This will deter the use of solar energy in Arizona which should be setting the standard for solar energy for the entire nation.

As a costumer of TEP the precedent set by agreeing to this rate increase will further discourage the instillation of solar panels in our community.

Please oppose the new solar fees and penalties proposed by UNS. Discouraging rooftop solar increases our states dependence on coal and natural gas. The consequences are detrimental to our health and environment. Energy conservation helps Arizona save water, reduce pollution and saves costumers money on their electricity bills. Please oppose the mandatory fees, demand charges and additional rooftop solar penalties as proposed by UNS Electric.
