**Company:** Tucson Electric Power Company      **Division:** Electric

**Nature Of Opinion**

**Docket Number:** E-01933A-15-0239      **Docket Position:** Against

I am against the proposed increase in REST surcharge requested by TEP. TEP is trying to crowd out competition in the solar business with these rate increases. They make it more expensive to use solar power as well as make the cost saving less for converting to solar and continuing with TEP back-up service. This is a good business move for TEP as it squeezes out competition and gives TEP the business advantage in solar energy market. But it is a real bad move for the energy consumer. More competition and cost savings will lead to more growth in solar energy use which is good for everyone. I encourage the AZCC to side with the consumers and AZ voters you represent and deny this surcharge increase.
