I am a homeowner in Johnson Ranch. Allowing Johnson Utilities to stop providing effluent water to Swing First would have a negative impact on Johnson ranch. If Swing First is forced to close Johnson Ranch Golf Club, the course will turn into desert. The result would be an unhealthy environment with blowing dust. The reason for Johnson Utilities to stop providing effluent is only to make more profit. The incentive for allowing credits for using effluent is to help recharge the ground water. The current use of effluent to water the golf course is also effective in recharging the ground water. Please direct Johnson Utilities to continue to allow Swing First to receive effluent water.
