STF 1.8 Please specify:

- a. The services the Company will be providing directly to end user customers; and
- b. The services the Company will be offering for resell to other carriers.

Response:

(a) The Company will be providing prepaid calling cards for use in international calling by end-user customers. Customers will be provided with an access number, with which they will initiate an international call that will first go to the Company's platform in Texas and will then be routed to its international point of termination.

(b) The Company will be providing casual dialing (using an access number) to end user customers. These dialing capability will go to the Company's platform in Texas to place international calls.

STF 1.9 Will the Company be providing long distance services (1+) directly to residential customers?

Response: No. The Company does not offer 1+ long distance services.

STF 1.10 Will the Company be providing long distance services (1+) directly to business customers?

Response: No. The Company does not offer 1+ long distance services.
