Nature Of Opinion

Docket Number: E-04204A-15-0142 Docket Position: Against

As publically elected officials should you not support the public in a clean air initiative for power generation? The Power Companies have to buy or generate power from somewhere why not from us the citizens who have invested in clean energy generation thru purchasing Solar Panels for our homes? What precludes us if the power companies win as citizens who have Solar Power to form our own Corporation and come to you to raise our rates on the power we generate and turn back to the power companies? The Government has been and continues to push for Clean Air and Clean Energy. Why are we allowing the Power Companies to interfere and change the rules? What can we do to go off the Grid if this passes and use our own Power Generation as our source of power by using Batteries to store our Solar Generated Power rather than let it go back to the Utility for a lesser rate that they charge us? The increase they are asking for far exceeds my retirement income increases from Social Security, and Investment Income. How do the retirement people continue to pay large increases and not have increases in our retirement income to off set or make thing equal. Thank you for your time and consideration. Wally Kettler
