Nature Of Opinion

Docket Number: E-01933A-15-0239 **Docket Position:** Neutral

Docket # E-01933A-15-0329 As a homeowner in Arizona with rooftop solar panels, I am concerned about TEP's request for rate changes, that this may apply more charges on solar customers. I request continued fair credit for providing excess solar power to my community, and in the process, helping to improve the environment and public health. That is really why I have solar panels. It is something else I can do to make the planet healthier. I would like the commission to recognise the benefits of rooftop solar as you consider TEP's application. Please base your decisions on solid studies - unbiased research. Thank you.
