Nature Of Opinion

Docket Position: Against

I am a solar customer and proud to seed alternative energy. APS is trying to charge me more for caring about the environment. Do hybrid vehicle owners pay more for gasoline? No. So then why should solar customers be charged more for power? I pay over \$40 a month when I don't even use one dollar of energy from APS (the grid). That is so overpriced for not using anything. And now they want more. This is outrageous. If I own a Toyota Prius (or any hybrid vehicle), I pay the same amount per gallon of gas as someone who drives a truck that gets 7mpg. Yet gasoline tax pays for roads. So why should I be penalized and have to pay more to the grid for being a solar customer? This is not fair!!! I am helping the world's energy issue by being a solar customer and APS is trying to penalize me more. This is criminal !!!
