Nature Of Opinion

Docket Number: W-04069A-16-0080

Docket Position: For

Water Commission

I am writing for the request for a water increase for the Oatman Water Co.

We agree after 12 yrs there should be a realistic increase in the cost of water service.

Yet in the last 12 yrs there has been very little improvement to our water and up keep of the equipment in Oatman.

Unfortunately, the mayorty of people in Oatman are unable to use the water for drinking we do not even give the water to our animals, but we do use the water for bathrooms, dishes, and showers.

We are aware there are water lines above & below the ground, and when there is an underground brake, it is very hard to locate the problem and at times the water co, loses 100's of gal of water, which is a big loss to them. As a town we are able to understand the problem with the pipes, we live in a very mountiness terrain.

Because of the age of most residents, a large increase could hurt them, we also understand, that less amount of people means higher cost for the water.

There is no simple answer to this problem.

Thank you,

Lee & Karen Kent
