I'm not sure this note should go here, so, if not, please send to the correct department. I read the article by Diane E. Brown saying "Arizona Utilities Trying to Dramatically Change, Increase Charges". I wish to give my opinion on this issue. Please do not allow APS to use these tactics to overcharge businesses and residential customers by using a high demand charge for one hour to set the entire monthly costs for that time period. That would be so unjust. Thank you for your consideration in this matter. I am a senior citizen and I could not afford any additional increases, especially something this unjust!
