**Nature Of Opinion**

**Docket Number:** E-01345A-16-0036      **Docket Position:** Against

Arizona should be encouraging more Solar Panel use, we should not be allowing Electric Utilities to charge more for infrastructure costs. More people and companies should utilize solar panels to reduce our use of fossil fuels. Another idea I have if electric utilities do manage to stop paying solar panels users for their excess generating is to set up a bank for excess capacity to be used by customers who are struggling to pay their electric bills.
