RE: Docket No. WS-02987A-16-0017

Dear Mr. Little;

I am writing to you on behalf of myself, my community, and the catastrophic impact this water situation will create. For 10 years the Johnson Ranch Golf Course has been purchasing Effluent / reclaimed water for our community golf course. The cost is \$100K per year. Johnson Utilities has put JR Golf Course on notice (Feb 15, 2016) that they will no longer offer effluent water to them. The water cost will increase 500% to \$500K which will bankrupt our golf course and turn our community in to a ghost town. We need your help to stop this madness NOW.

I am personally concerned about the following impact:

- decreased property values
 - mass exodus of residents moving out of the community
 - decrease in new home growth
 - loss of the JR Golf Course
 - decreased winter visitors / huge financial impact
 - horrible precedent set upon a HOA and a golf course,
- there will be nothing stopping the utility from doing this to other HOAs and golf courses. This would render an entire section of the valley powerless to prevent the utility burdening these customers wily unsustainable high water costs.

We need your help to stop this madness and put Johnson Utilities back in check. We need to save our community and the JR Golf Course, which is our community. Please help us. Thank you.

Sincerely,

Kristin Heffern
