Nature Of Opinion

Docket Number: E-01933A-15-0239 Docket Position: Neutral

RE Docket No. E-01933A-15-0329 AKA – The Renewable Energy Standard and Tariff Implementation Plan of TEP I would like to encourage the Arizona Corporation Commission to encourage TEP to embrace the new energy paradigm. Ideally TEP would be requesting a rate increase in order to assist it in developing solar infrastructure that would allow it to generate roof-top energy through-out its delivery area. Requesting a rate increase in order to continue to generate fossil fuel dependent energy is unacceptable. Arizona will require decreased use of fossil fuel in order to maintain its capacity to provide affordable habitat to its residents. Temperature goes up; water goes down, cost of living sky-rockets. In order for our current residents not to lose their property values, we need TEP and the Commission to be on board. Thank you for your bold consideration, Cynthia Duncan
