AZ CORP COMMISSION
DOCKET CONTROL

**IN THE MATTER OF THE COMMISSION'S INVESTIGATION
OF VALUE AND COST OF DISTRIBUTED GENERATION**

RE: DISABILITY REQUEST FOR EHS INTERVENER

As an electromagnetic hypersensitive (EHS) APS solar customer, I request a reasonable alternative accommodation, for my required attendance at the commission under this docket, from April 15, 2016 through May 6, 2016.

Since the ACC has a policy of nondiscrimination on the basis of disability in admission to its public meetings, due to my electrically hypersensitive (EHS) status, I request an alternative nondiscriminatory option from April 15, 2016 through May 6, 2016.

A Faraday cage¹ environment would seem to be the best choice. Otherwise, please suggest a combination of choices, such as telephonic communication and your Live Meeting Broadcast.

Shaylin Bernal is on vacation, so I will need another ACC contact to assist me with your preferred alternative choice.

Respectfully submitted,

Patricia C. Ferre
