Nature Of Opinion

Docket Number: WS-02987A-16-0017 Docket Position: For

I would like to protest the unbelievable increase in the price of water that Johnson Utilities is now charging the Golf Club at Johnson Ranch. The cost and type of water should have been determined years ago. It is my understanding that Johnson Utilities is now delivering a different type of water and thus the absurd increase. Our home backs onto the golf course and if they go bankrupt we will lose a large sum in home value. In addition, I am wondering if Mr Johnson wants the course to go bankrupt so he can buy it for next to nothing and either run it himself or turn it into more homes/condo. Mr Johnson has a long history of misdeeds, including -Low water pressure for years -Including propaganda messages against the copper mine in his invoice mailings (which I reported on multiple occasions but it is still going on) -Dumping raw sewage on multiple occasions (by Pecan Creek & San Tan Heights, for example). We do not trust the quality of our water nor the legality of this latest move against the golf course. Please, please do not let this company ruin our community any more than he already has.
