Re: UNS rate case

AZ CORP COMMISSION  
DOCKET CONTROL

Dear Chairman Little and Members of the Arizona Corporation Commission,

I am an electricity ratepayer in Arizona and I oppose additional mandatory fees representing an attack on rooftop solar, which has been proposed by UNS Electric in this rate case.

This case is the first to be argued before the ACC this year and next, and it could set a negative precedent for most Arizona electricity customers. As a TEP customer, I do not want huge increases in mandatory fees, demand charges on residential customers, or new penalties on rooftop solar.

This proposal to raise monthly mandatory fees and impose a "demand charge" would have a negative impact on working class families and those who conserve energy.

Please oppose the fees, demand charges, and additional penalties proposed by UNS Electric.

→

Thank you,

Kevin Koegel
