RE: UNS RATE CASE

Arizona Corporation Commission

DOCKETED

APR 21 2016 Dear Chairman Little & Members of the AZ Corp. Commission:

DOCKETED BY	<i>[Signature]</i>
-------------	--------------------

I am an electricity rate payer. I oppose the additional mandatory fees & attach on rooftop solar which have been proposed.

I own several rentals and pay plenty to T.E.P. At my home, however, I have rooftop solar. Much of the energy I make goes back into the net, at minimal cost to T.E.P.

Rooftop solar is actually the cheapest form of electricity available to the net.

Please reconsider and do not approve or mandate fees and penalties. It is our duty to use the cleanest energy available, and in Arizona solar should be the main power source.

Thank you!
