Nature Of Opinion

Docket Number: W-01445A-15-0277 Docket Position: Neutral

I just heard the representative of Ross Abbot. The Rep stated that they receive most of their water as non potable water. I do not believe the water is non potable. Ross Abbot has always had a higher standard of what their water quality needs compared to the EPA and the ADEQ. Ross Abbot has always treated water from AWC as non potable and treated all water with an RO system. I am interested in knowing if the water delivered to Ross Abbot meets the requirements of ADEQ drinking water standards. If so it is potable water that Ross Abbot receives.
