AZ CORP COMMISSION
DOCKET CONTROL

Memorandum
From the office of
Chairman Doug Little
Arizona Corporation Commission
1200 W. WASHINGTON
PHOENIX, ARIZONA
(602) 542-0745

TO: Docket Control

DATE: May 16, 2016

FROM: Chairman Doug Little's Office

SUBJECT: Docket No. E-01575A-15-0312

Arizona Corporation Commission

DOCKETED

MAY 16 2016

Chairman Little's office has received the 59 attached emails supporting the above Docket Number. There were also 243 identical, supportive emails submitted to the Chairman's office. The 59 emails can be viewed either in Docket, or on the website via the eDocket link.

Subject: End the unfair solar subsidies in our electric bills.
To: contact@cau-ses.com

Dear Commissioner,

We support SSVEC's rate proposal to reduce the subsidy given by ordinary ratepayers to solar users.

We understand that this will be accomplished by raising monthly service fees while providing a corresponding reduction in the kilowatt hour rate.

While we support efforts to promote more solar and renewable energy, we believe that requiring unreasonable subsidies paid by one class of ratepayers to another is unfair and counterproductive.

We are aware that SSVEC tried for years in good faith to negotiate a fair deal for all concerned and was rebuffed time and time again by solar industry lobbyists who rejected any reasonable proposal, thus compelling SSVEC to file for these rate adjustments.

We urge you to approve the SSVEC proposal. It is a fair and reasonable approach that will allow solar development to continue without imposing unfair hidden costs on the 97% of ratepayers who do not have solar units on their homes.

Sincerely,
Bruce J. Cameron

Subject: End the unfair solar subsidies in our electric bills.
To: contact@cau-ses.com

Dear Commissioner,

We support SSVEC's rate proposal to reduce the subsidy given by ordinary ratepayers to solar users.

We understand that this will be accomplished by raising monthly service fees while providing a corresponding reduction in the kilowatt hour rate.

While we support efforts to promote more solar and renewable energy, we believe that requiring unreasonable subsidies paid by one class of ratepayers to another is unfair and counterproductive.

We are aware that SSVEC tried for years in good faith to negotiate a fair deal for all concerned and was rebuffed time and time again by solar industry lobbyists who rejected any reasonable proposal, thus compelling SSVEC to file for these rate adjustments.

We urge you to approve the SSVEC proposal. It is a fair and reasonable approach that will allow solar development to continue without imposing unfair hidden costs on the 97% of ratepayers who do not have solar units on their homes.

Sincerely,
Joseph Wesley Reynolds

Andrea Gaston

We understand that this will be accomplished by raising monthly service fees while providing a corresponding reduction in the kilowatt hour rate.

While we support efforts to promote more solar and renewable energy, we believe that requiring unreasonable subsidies paid by one class of ratepayers to another is unfair and counterproductive.

We are aware that SSVEC tried for years in good faith to negotiate a fair deal for all concerned and was rebuffed time and time again by solar industry lobbyists who rejected any reasonable proposal, thus compelling SSVEC to file for these rate adjustments.

We urge you to approve the SSVEC proposal. It is a fair and reasonable approach that will allow solar development to continue without imposing unfair hidden costs on the 97% of ratepayers who do not have solar units on their homes.

Sincerely,
Daryl Masterson

Andrea Gaston
