 AZ CORP COMMISSION
 DOCKET CONTROL

Today I am writing you to ask that you please vote in support of a change to demand rates, thereby ending the unfair practice of net metering.

Currently, Arizona rooftop solar relies on taxpayer backed government subsidies plus an exaggerated net metering price. Our state's net metering policy requires utility companies to purchase unused power generated by rooftop solar at the retail rate, not the wholesale rate, which can be three times less than retail. This practice is outdated and costly for those of us who either choose to not have rooftop solar or who can't afford to do so.

Please end the unfair practices of these rooftop solar corporations. Support demand rates and approve a new billing system.

Thank you,
 Robin Engel
