IN THE MATTER OF THE APPLICATION OF
ARIZONA WATER COMPANY FOR
APPROVAL OF POINT-OF-USE TREATMENT
DEVICE TARIFF

DOCKET NO. W-01445A-16-0192

APPLICATION FOR APPROVAL
OF TARIFF

Arizona Water Company requests the Arizona Corporation Commission approve the attached Point-of-Use Treatment Device Tariff for all of its systems. The purpose of this tariff is to enable Arizona Water Company to comply with the Arizona Department of Environmental Quality's requirements for Point-of-Use treatment.

RESPECTFULLY SUBMITTED this 15th day of June, 2016.

TARIFF SCHEDULE

ARIZONA WATER COMPANY

Filed by: William M. Garfield

Title: President

Date of Original Filing:

System(s): Company-wide

A.C.C. No. 560

Cancelling A.C.C. No. None

Tariff or Schedule No. POU-289

Filed: June 15, 2016

Effective: To Be Determined

POINT-OF-USE TREATMENT DEVICE TARIFF

I. Purpose and Applicability

(A) Purpose: The purpose of this tariff is to enable Arizona Water Company ("Company") to comply with the Arizona Department of Environmental Quality's ("ADEQ") requirements for Point-of-Use ("POU") treatment. The Company will install, maintain, and test POU treatment devices pursuant to the provisions of Arizona Administrative Code ("A.A.C.") R18-4-222 and ADEQ's Arizona Point-of-Use Compliance Program Guidance (the "Guidance"). A POU treatment device treats only the water intended for direct consumption and is typically installed at a single tap on the customer's premises, such as a kitchen sink or drinking fountain.

(B) Applicability: This POU Treatment Device Tariff is applicable to customers in the systems listed above, where ADEQ has approved POU treatment to comply with Safe Drinking Water Act requirements.

II. Requirements

The Rules of the Arizona Corporation Commission ("Commission") and ADEQ, including A.A.C. R14-2-407, R14-2-410, R18-4-222, the Guidance, and the terms of this tariff govern the installation and use of POU treatment devices:

1. Upon written notice from the Company, a customer must permit the Company to install one or more POU treatment devices and related equipment and facilities (collectively the "POU treatment devices"), as the Company deems necessary, on the customer's property or leasehold. The Company will give the customer thirty (30) days from the date it sends written notice to the customer to permit the Company to install the POU treatment devices. If A.A.C. R14-2-410.B.1 is not applicable and the customer can show good cause why the customer cannot permit the Company to install the POU treatment devices within thirty (30) days, the Company may allow the customer an additional thirty (30) days to have the POU treatment devices installed.

2. The Company will purchase, install, and maintain the POU treatment devices.

ARIZONA WATER COMPANY
POINT-OF-USE TREATMENT DEVICE TARIFF

3. Subject to the provisions of the A.A.C., including R18-4-222, and the Guidance, the installation of the POU treatment devices is a condition of service. After the Company installs the POU treatment devices, the customer's compliance with this tariff is a condition of service.

4. The Company will arrange to install the POU treatment devices at a time convenient to the customer and the Company.

5. All POU treatment devices will be solely the Company's property. The customer may not perform any work on, maintain, alter, or interfere with the POU treatment devices in any way.

6. Within 72 hours of receiving notice, the customer must permit the Company or its agents to enter the customer's property or leasehold to maintain any POU treatment devices in good working order, including, but not limited to, periodic replacement of filters, water sampling, maintenance, and replacement of the POU treatment devices.

7. Subject to the provisions of A.A.C. R14-2-407 and R14-2-410, and in accordance with the terms of this tariff and the Company's tariff TC-243, the Company may terminate service or deny service to a customer who fails to allow the Company to install POU treatment devices, permit the maintenance of the POU treatment devices or water sampling as required by this tariff, or fails to comply with any other terms of this tariff.

8. The Company will test the POU treatment devices in conformance with the requirements of A.A.C. R18-4-222 and the Guidance.

9. Consistent with the provisions of A.A.C. R14-2-407.B.2 and 3, each customer shall safeguard the POU treatment devices installed on the customer's premises. Each customer must exercise all reasonable care to prevent loss or damage to the POU treatment devices, excluding ordinary wear and tear. The customer will be responsible for loss of or damage to the POU treatment devices on the customer's premises arising from neglect, carelessness, or misuse and in such cases the customer will reimburse the Company for the cost of necessary repairs or replacements.

10. Pursuant to A.A.C. R14-2-407.B.5, each customer must notify the Company of any failure the customer identifies in any Company POU treatment device.

11. Customers must notify Company of any fixtures for direct consumption that are added, removed or modified.
