Regarding: UNS Electric Rate Case Docket #E#-04204A-15-0142

Dear Chairman Little and Members of the Arizona Corporation Commission:

I am writing to object strenuously to the UNS proposal. It is price gouging. Rooftop solar saves money for everyone, those with solar on their homes and those without. Expanding utility power plants costs everyone more. The UNS proposal will not help with the spread of more solar units. Please do right by solar energy which can do so much good for our State and our Planet. Keep the Rooftop Solar Option thriving in Arizona. Thank you.

Sincerely,

Molly McKasson Morgan  
2888 E. 4th St.,  
Tucson, Arizona 85716
