Subject: Solar State *E-000005-14-0023*

I wish to add my voice in urging you make all of Arizona a solar energy state. Being a registered voter and resident of Tucson for over 40 years, I expected us to be further ahead in the usage of solar energy at this time in history, especially with our immense amount of sunshine. By replacing fossil fuels with renewable energy, we will continue to reduce climate change, clean the environment, and stimulate local industries. I'm glad to see the large solar farms at DM and other locations, however, we need to continue to expand solar usage to residential rooftops and businesses.
