Subject: Solar-Trico E-01461A-16-0229

To all ACC members,

We should not be making it harder to increase roof top solar, we need more solar. We need to move to expand clean energy choices.

The ACC should not approve Trico's proposed changes to rooftop solar, nor should they approve the huge increases in fixed fees such as the monthly customer charge increase and the proposed 'demand charge.'

* Demand charges are unfair and very difficult for residential customers to control. Instead, volumetric charges should be emphasized, to reward those who conserve energy and allow customers to easily control their electric bills.

Regards,
Betty B Johnson
