I worry about so many of the Sunsites Residents who- like many –live on retirement and/or ss. The quality of the water is barely potable and unless that is a major issue when raising water rates, I feel you are making it impossible to live here. We are in such a depressed area, this water rate hike is a death knell. Homes are impossible to sell if they are older than 20 years. Since this village was founded back in the sixties, it is the majority of the homes that will not sell. Please –if this rate hike is approved, make them improve the quality of our water.
