Nature Of Opinion

Docket Position: Against

In 2013, Epcor sent their parent company, The City of Edmonton, Canada, \$112 million in profits for operations in New Mexico and Arizona. This information was made public on the parent company's web site. After submitting this information to the Arizona Corporation Commission(ACC), the web page has since been removed. With Epcor purchasing these operations for \$450 million, at the end of year 2016, they will have recouped their original investment. A year ago or so, Epcor wanted rate consolidation. The citizens in Sun City were frightened by the possibility their rates could double. RUCCO step forward and brokered a deal that they agreed to that began an immediate increase of \$4 per month. There is a long standing public reports of corruption with the ACC. State Legislatures created RUCCO to solve these claims. I do believe it was Governor Brewer who appointed ex-CEO from Century Link to chair RUCCO, who was the one who set forth the above mention agreement for rate increase. The Public Utilities – 1922 by John A. Russell, discloses "Principles Under Which Utilities Are Regulated". 1.) Public Utility organizations are of their nature monopolies ... in return ... the State has a right to regulate their charges and practices ... 2.) That such regulation of charges and prices shall have a two-fold result in view – namely, the prevention of excessive earnings ... guarantee that the earnings shall be sufficient to pay an adequate return upon the capital, after operations, maintenance ... depreciation have been made. Our State Legislatures; Debbie Lesko, Rick Gray and Tony Riverio were contacted to stop the Consolidation of Independent utility districts into one unit. I was told that what I was asking was unconstitutional. Our State Constitution declares that the Legislature has a duty, a responsibility and right to regulate the ACC. Item two; note "excessive profits". The Public Utility Pyramids by Paul G. Mahoney (2008) reports on Public Utility Companies and an ACT by Congress to stop the practice that John A. Russell's book above was supporting. In this report, these holding companies made the same claims that Epcor Water is making now, such as, reduce accounting costs and other false comments, such as aging systems. President Roosevelt called these companies Evil (1/4/1935). He also has stated opposition against any action against them were contrived, which was later proven. This bill called the Public Utility Holding Company Act of 1935 (HCA) was passed and quickly challenged in court for being Unconstitutional. In 1938, the Supreme Court upheld the Act's constitutionality. Congress enacted the Public Utility Holding Company Act of 1935 (HCA), which limited holding companies to owning a single, geographically contiguous operating system and prohibit more than a single holding tier atop any operating company. (The Public Utility Pyramids) It seems the Arizona Corporation Commission has reversed this long standing principle at the detriment to the public. Now, a company can have little island-operating systems and consider them contiguous. These FAIR MARKET values are nothing more than placing more profits in the pockets of Utility Companies, and there is a Negative Return to the user. The Arizona Corporation Committee needs to reverse past approvals concerning Sun City. Rate Consolidation based on ownership is unconstitutional and smack against settled laws. If ACC approves this Rate Consolidation, I asked the following be a part of the approval: 1.) That Epcor being about the sixth company since the creation of the Sun Cities in 1960 (tacking), and that in a Municipal Law book that companies such as Epcor had 10 years to recoup their cost and then through Eminent Domain, that all operations become locally controlled/owned.

Arizona Corporation Commission Utilities Complaint Form

2.) That EPCOR not be allowed further rate increases. 3.) That Epcor users to sever themselves from waste treatment service, retaining water service only, if they install a stand alone waste treatment system now available, and that this would override local jurisdictions on the matter. EPCOR claims an aging system. New York City told me their aging system is fine, that other companies damage their system when they install new lines. Likewise with the City of Portland, Oregon. Epcor statement of aging is false. On EPCOR's web site, they claim they need money to treat wastewater. In Sun City, the waste is sent to the City of Tolleson, which enlarged their original proposed treatment plant to accommodate waste from the City of Peoria and Sun City. I hear Epcor is building a NEW system to cut them off, which will be a financial hit to Tolleson.
Sincerely, Helmuth Hack

Nature Of Opinion

Docket Number: WS-01303A-16-0145 Docket Position: Against

As an EPCOR ratepayer and Sun City resident, I strongly object to EPCOR'S recommendation for full consolidation of the EPCOR wastewater districts resulting in the same rate for all districts. EPCOR shows their cost of service for our district is approximately \$25 per month and the proposed consolidated rate would be approximately \$41.02 over a 3-year time frame for out district ratepayers. That's 64.1% higher than necessary. Our increase is being used to subsidize the three districts whose rates would drop dramatically. Our generation has never shied away from our responsibility to earn our way and pay for the costs we incur. We should not be forced to subsidize the other districts. They should bear the responsibility for the choices they made -- not us.

As EPCOR ratepayer we do not accept EPCOR's recommendation for full consolidation of the wastewater districts resulting in the same rate for all districts. To accept your recommendation would cost approximately \$16 more per month over a 3 year time frame. We do not wish to subsidize the other three districts as their rates would drop and ours would rise dramatically. Thank you for considering our SCHOA needs and responsibilities. Doug & Norine Shamberger

Nature Of Opinion

Docket Number: WS-01303A-16-0145 **Docket Position:** Against

Please do not lump us together with places like Anthem, we are all retired and on fixed incomes and can not afford higher utilities bills. Usually there are only 2 people per house hold and often only one person. We do not use the amount of water that a family house hold would use. Most of us do not use dishwashers we do dishes by hand there are so few dishes to do when there is only 1 or 2 of you. We do not use the washing machine as much as a family of 4 or 5 people do. We are not the same and should not be lumped with those types of neighborhoods and then be included in the rate hike.

We here in Sun City are all on fixed incomes, some may have more money than others but, on the big picture we don't get raises either. The groceries keep going up, the Rec. Center keeps raising the rate also. Where are we supposed to get all this money? If there was such a thing as a money tree I wouldn't have any worries. Thank you, Barbara Beck

Nature Of Opinion

Docket Number: WS-01303A-16-0145 **Docket Position:** Against

I bought a home several years ago in Sun City because it made retirement affordable. I could not afford the nicer homes in Sun City West. Low water rates are part of Sun City's affordability. It is unfair that Sun City residents should have their rates increased, while those living in more affluent areas would have their rates reduced. Epcor knew there were different water rates and costs of doing business in the various water districts they acquired, and they chose to acquire them. It is not right to change these rates for the sake of making Epcor's bookkeeping and business operation simpler. They knew what they were getting into when they bought these systems, and those of us living in Sun City should not be victimized by this monopoly's efforts to increase their profits.

Nature Of Opinion

Docket Number: WS-01303A-16-0145

Docket Position: Against

As an EPCOR ratepayer and Sun City resident, I strongly object to EPCOR's recommendation for full consolidation of the EPCOR wastewater districts, since we would be the only district to incur an increase. Sun City residents are mostly retired and living on a fixed income. We do not have children living with us and we live in single dwelling homes or condos and do not use the amounts of water that the other districts such as Anthem, Agua Fria and Mohave do. They are homes with children and therefore they use much more amounts of water than Sun City residents. So why should Sun City have to consolidate to pay for the other districts' excess use of wastewater usage? An increase from \$22.11 to \$41.02 a month over 12 months is an extra \$227 a year. Fairness and greater efficiency should be brought to Sun City residents. Thank you.
