**Sent:** Tuesday, August 16, 2016 4:27 AM  
**To:** Utilities Div - Mailbox  
**Subject:** Reject the UNS proposal to eliminate net metering!

Dear Arizona Corporation Commission,

Thank you for supporting energy choice in Arizona by rejecting confusing and unfair new rate schemes proposed by UNSE (Docket E-04204A-15-0142). The UNSE proposal was a dramatic departure from the progress Arizona has made in creating new, affordable choices for residents.

I hope the ACC continues to support solar and maintain policies that provide solar choice and allow the solar industry to do business and create jobs in our state.

Thank you again for listening to the people of Arizona.

Regards,

Dear Arizona Corporation Commission,

Thank you for supporting energy choice in Arizona by rejecting confusing and unfair new rate schemes proposed by UNSE (Docket E-04204A-15-0142). The UNSE proposal was a dramatic departure from the progress Arizona has made in creating new, affordable choices for residents.

I hope the ACC continues to support solar and maintain policies that provide solar choice and allow the solar industry to do business and create jobs in our state.

Thank you again for listening to the people of Arizona.

I see no reason for Arizona to not be operating completely on solar power. If a country like Germany, where I am currently visiting, can run on solar and wind power - a very smart move - Arizona should be way ahead of them since the sun does not shine in Germany half as much as Arizona. Why not have the goal of being the first State to operate fully on alternative power?

I hope the ACC continues to support solar and maintain policies that provide solar choice and allow the solar industry to do business and create jobs in our state.

Thank you again for listening to the people of Arizona.

**Subject:** Reject the UNS proposal to eliminate net metering!

Dear Arizona Corporation Commission,

I have recently been informed that as a non-solar member I am seeing fixed costs that the solar member is avoiding being pushed my way in the form of future rate increases. I appreciate the fact that solar offers an advantage of generating your own electricity, but if you are on the grid there is a cost involved that SSVEC needs to recover.

I hope the ACC continues to support solar and maintain policies that provide solar choice and allow the solar industry to do business and create jobs in our state, however, I also don't want to see this carried out on the backs of non-solar members. It's always been about someone carrying an unfair share of the burden. I'm glad people can take advantage of solar, that's great for them, but don't make it a burden for others. Thank you again for listening to the people of Arizona.

Dear Arizona Corporation Commission,

Thank you for supporting energy choice in Arizona by rejecting confusing and unfair new rate schemes proposed by UNSE (Docket E-04204A-15-0142). The UNSE proposal was a dramatic departure from the progress Arizona has made in creating new, affordable choices for residents.

I hope the ACC continues to support solar and maintain policies that provide solar choice and allow the solar industry to do business and create jobs in our state.

Thank you again for listening to the people of Arizona.

Regards,
