**Subject:** TEP rate request

E-01933A-15-0322  
E-01933A-15-0239

I have been asked to write to oppose the request, but I SUPPORT IT. The federal government has pursued policies to kill off cheaper coal generation of electric power and replace it with solar and wind sources which are far, far more expensive. Rate increases must necessarily follow. Whether the particular amounts are correct I cannot comment on, but some increase must be expected.

Thank you.

Louis Gasper

**Subject:** Solar plan E-01933A-15-0322  
E-01933A-15-0239

Please vote for the TEP proposal to stop solar from ripping off all of us little people! It is not fair and only making the rich even richer and the poor even poorer! Solar is a scam that needs to be stopped. If you want to go solar, it needs to be fair for both sides. They need to PAY THEIR WAY! It is your job to protect the poor! The way it is set up now is a pathetic joke!
