Phoenix AZ 85007

Sir/Madam:

This is in reference to the last compliance item from our rate increase Decision #75554, Docket #W-02181A-15-0216 . Page 17, Lines 21-24, due 8/13/16, concerning our generator and completing the final hookup and installation, we have run into delays beyond our control. Robert from AGM Generator and Motor, the company we use for all our pump and generator service, had to have emergency hernia surgery and he is out of work a few weeks and cannot complete the install until he is back to work. I had spoke with Carmel Hood and requested additional time before Robert got hurt, but with his situation I am requesting an additional 60 days, November 15<sup>th</sup>, 2016. I am going to try to get it complete before then, we are having our electrician tackling more of the work but we cannot finish without Robert. Robert should be available soon but I would like to avoid requesting too short of a time and having to come back with another request. I am hoping that because of the extraordinary circumstances you can grant this additional time. Robert said you could contact him to confirm the situation if need be, if you need more information or Roberts contact information please contact me at the office (928) 284-9311, my cell (928) 451-1640 or my home (928) 284-2978. I can also be reached by email at [LLLLinaz@earthlink.net](mailto:LLLLinaz@earthlink.net). Thank you for your consideration and assistance on this matter.

---
