**Subject:** Docket No. WS-01303A-16-0145

Dear Commissioner –

As a resident of Dos Rios community, a community in the Agua Fria wastewater district, I want the record to show my unconditional support for full consolidation of the EPCOR waste water districts. It is a fair and equitable solution to a major discriminatory and economic problem which has been plaguing our communities for many, many years. Other utility companies, welcomed growth into their systems. As with those utility customers, full consolidation treats all consumers on an equal basis, is economically viable to all parties and is acceptable to the utility company, EPCOR. Our property values are suffering due to these high water and waste water rates. Some consumers may see an increase but all consumers will be treated the same and uniformity and fairness is paramount. Please support full consolidation as requested by EPCOR.

Thank you in advance

As with those utility customers, full consolidation treats all consumers on an equal basis, is economically viable to all parties and is acceptable to the utility company, EPCOR. Our property values are suffering due to these high water and waste water rates. Some consumers may see an increase but all consumers will be treated the same and uniformity and fairness is paramount. Please support full consolidation as requested by EPCOR.

Thank you in advance.

Dear Commissioners,

As a resident of CrossRiver, a community in the Agua Fria wastewater district, I want the record to show my unconditional support for full consolidation of the EPCOR waste water districts. It is a fair and equitable solution to a major discriminatory and economic problem which has been plaguing our communities for many, many years. Other utility companies, welcomed growth into their systems. As with those utility customers, full consolidation treats all consumers on an equal basis, is economically viable to all parties and is acceptable to the utility company, EPCOR. Our property values are suffering due to these high water and waste water rates. Some consumers may see an increase but all consumers will be treated the same and uniformity and fairness is paramount. Please support full consolidation as requested by EPCOR.

Thank you in advance.

Dear Commissioner,

As a resident of Cross River, a community in the Agua Fria wastewater district, I want the record to show my unconditional support for full consolidation of the EPCOR waste water districts. It is a fair and equitable solution to a major discriminatory and economic problem which has been plaguing our communities for many, many years.

Other utility companies, welcomed growth into their systems. As with those utility customers, full consolidation treats all consumers on an equal basis, is economically viable to all parties and is acceptable to the utility company, EPCOR. Our property values are suffering due to these high water and waste water rates. Some consumers may see an increase but all consumers will be treated the same and uniformity and fairness is paramount.

Please support full consolidation as requested by EPCOR. Thank you in advance.

Sincerely,

Cathy and Chris Petrucelli

Dear Commissioner Little,

As a resident of Crossriver, a community in the Agua Fria wastewater district, I want the record to show my unconditional support for full consolidation of the EPCOR waste water districts. It is a fair and equitable solution to a major discriminatory and economic problem that has been plaguing our communities for many, many years. Other utility companies, welcomed growth into their systems. As with those utility customers, full consolidation treats all consumers on an equal basis, is economically viable to all parties and is acceptable to the utility company, EPCOR. Our property values are suffering due to these excessively high water and wastewater rates. Some customers may see an increase but all consumers will be treated equal and uniformity and fairness is paramount. Please support full consolidation as requested by EPCOR.

Thank you in advance,

Steven & Kellian Chestnut
