RE: IN THE MATTER OF THE APPLICATION OF VALLE VERDE WATER COMPANY FOR AN EXTENSION OF ITS CERTIFICATE OF CONVENIENCE AND NECESSITY (DOCKET NO. W-01431A-16-0316)

INSUFFICIENCY LETTER

Dear Mr. Wene:

In reference to the above-mentioned application for Valle Verde Water Company docketed on September 9, 2016, this letter is to inform you that Staff of the Arizona Corporation Commission ("ACC") are still in need of further information as indicated below to determine sufficiency requirements in the most recent Arizona Administrative Code ("A.A.C") R14-2-402. Please provide the following information as required by the ACC Water Rules:

1. Identification of any municipality or other utility company that are within 5 miles of proposed extension area and notice to such municipality or utility of the CC&N extension application.
2. A complete written description of the requested facilities proposed to be constructed or that have already been constructed.
3. A detailed description of the proposed construction timeline for facilities with estimated starting and completion dates. If the facilities have already been constructed, please provide the ADEQ Approval of Construction.
4. Who is the proposed sewer provider for the extension area, and what is the APP number for such sewer provider.
5. The application indicates the franchise is to be late filed. Since the franchise is one of the minimum filing requirement, such documentation is required at the time of filing.

6. Provide a copy of a Physical Availability Determination, Analysis of Adequate Water Supply, or Analysis of Assured Water Supply issued by the Arizona Department of Water Resources ("ADWR") for the proposed extension area or the status of the application for such approval.
7. ADWR's compliance report indicates the water system is not in compliance. Please describe Valle Verde's attempts toward compliance.
8. The calculated water loss for Valle Verde is at 25.7 percent (exceeds 10 percent water loss limit). Please explain how Valle Verde plans to serve the requested extension area if the system has such high water loss existing.

Additional data requests may be issued or follow-up information may be requested in this matter. Pursuant to the A.A.C. R-14-2-411(C), upon meeting sufficiency requirements, the Commission has 150 days for its substantive review. This includes preparing a Staff Report, conducting a hearing and preparing a Recommended Opinion and Order to present to the Commission at an Open Meeting. Further data requests will also be forthcoming.

If you have any questions concerning this matter, please feel free to contact me at 602-542-0818 or e-mail me at vwallace@azcc.gov.

Sincerely,

Vicki Wallace
Executive Consultant
