Mr. Forese:

WS-01303A-16-0145

This letter is on the Docket: ~~WS-01303A-0145~~. I am a customer of EPCOR Water Company, in Sun City. As far as I can see EPCOR will not connect the Wastewater Districts with pipes, yet they request to consolidate us on paper, on finances. That is crazy, since this would force us to subsidize the other districts. We are paying high enough for their treatment of the wastewater.

On my billing from EPCOR regularly I use 1 or 2 thousands of gallons of fresh water in almost every cycle. Almost 70% of this water is for irrigating my small bushes and a few trees. Yet I am charged for 7 thousands of gallons as "my" wastewater. I have bills to prove this.

If EPCOR has trouble to run the water companies they purchased they should sell them. I did not ask them to buy. They did not do their homework on these companies before the purchase. This is not my fault. In your job of ratemaking you cannot make Sun City/ Youngtown bear the burden to ease up on the other districts. When we moved here years ago we had to take into consideration the cost of living here. We have fixed retirement income. We should not be providing more money for the CEO of EPCOR. We Sun City residents are watching how the Commission operates and votes.
