**DOCKETED**

OCT 26 2016

DOCKETED BY 

**Andrea Gaston**

---

**From:** Karin Shelton <zedraf01@gmail.com>  
**Sent:** Tuesday, October 25, 2016 9:03 AM  
**Subject:** SUPPORT SSVEC

Dear Commissioners:

**Please support the position of SSVEC, the Commission staff, as well as the judge's recommendation that protects members in Sulphur Springs Valley Electric Cooperative's docket E-01575A-15-0312.**

We agree that increasing the monthly minimum while decreasing the kWh charge is the best way to protect all SSVEC's members and prevent the cost shift between those who don't have solar and those who do.

I urge you to accept this proposal by SSVEC, the ACC staff, and the Judge. Please protect the interests of the not for profit cooperative's members and not cave in to out of state special interest solar lobby, who are only looking out for their bottom line.

Sincerely,  
Karin Shelton

Dear Commissioners:

**Please support the position of SSVEC, the Commission staff, as well as the judge's recommendation that protects members in Sulphur Springs Valley Electric Cooperative's docket E-01575A-15-0312.**

We agree that increasing the monthly minimum while decreasing the kWh charge is the best way to protect all SSVEC's members and prevent the cost shift between those who don't have solar and those who do.

I urge you to accept this proposal by SSVEC, the ACC staff, and the Judge. Please protect the interests of the not for profit cooperative's members and not cave in to out of state special interest solar lobby, who are only looking out for their bottom line.

Nancy Turner

**Subject:** Sulfur Springs Valley Electric Cooperative

Dear Commissioners:

As an Energy professional that resides and works in rural Arizona, I ask that you Please support the position of SSVEC, the Commission staff, as well as the judge's recommendation that protects the members in Sulfur Springs Valley Electric Cooperative's docket E-01575A-15-0312.

I hope you agree that increasing the monthly minimum while decreasing the kWh charge is the best way to protect all SSVEC's members and prevent the cost shift between those who don't have solar and those who do. Not only does the solar industry rely on subsidies through charges to the members and customers of the utilities serving the area's that they work. It is self serving for these solar installers for the kWh rates be higher. Also in the case of installers that lease solar systems there are tax credits, depreciation and large un-taxed revenue streams. These companies rely on both the utility and governmental subsidies, the rate payers and tax payers sacrifice so these businesses can pocket extreme profits. Ultimately the system has been developed in a way that the poor subsidize the rich.

I urge you to accept this proposal by SSVEC, the staff, and the judge. Please protect the interests of the not for profit cooperative's members and not cave in to out of state special interest solar lobby, who are only looking out for their bottom line.

Thank you,

Steven M. Bouman

**Subject:** In support of SSVEC

Dear Commissioners:

Please support the position of SSVEC, the Commission staff, as well as the judge's recommendation that protects members in Sulphur Springs Valley Electric Cooperative's docket E-01575A-15-0312.

We agree that increasing the monthly minimum while decreasing the kWh charge is the best way to protect all SSVEC's members and prevent the cost shift between those who don't have solar and those who do.

I urge you to accept this proposal by SSVEC, the ACC staff, and the Judge. Please protect the interests of the not for profit cooperative's members and not cave in to out of state special interest solar lobby, who are only looking out for their bottom line.

Thank you,  
Jennifer & Daniel Wilson
