Nature Of Opinion

Docket Number: E-01933A-16-0235 **Docket Position:** Against

This does not allow people to maintain their own sustainable electric power. The name of the docket itself is misleading and I do not agree with this policy, especially within my own town. I want to be able to live sustainably and should not be punished or feel a financial burden in order to do so. What you are doing here is counterproductive and will discourage people from helping maintain a strong, healthy planet through the implementation of renewable energy at the domestic level. I am ashamed to live in a community where this is trying to be passed for the sake of wealthy corporations and not for the good of the people, community, and environment as a whole. This must be stopped.
