Nature Of Opinion

Docket Number: W-02369A-16-0481 Docket Position: Against

Walden Meadows CC has had to absorb Jim West's debts incurred by Acme Water Company. This is the third water company that he has run into the ground on public record. In this case he received payment for water from the customers served by his company. He however failed to do necessary repairs. Incurring this huge debt that Walden Meadows is now passing on to their customers. The Corporation Commission is giving a grant to help with the repairs also. This is the first notice I have seen about a rate increase, many customers are on a fixed income. This amount is about half of the rate we pay now. I am well past retirement age and am driving 35 miles one way to work. This enables me to eke out an existence for now. I think a 5.00 surcharge is more reasonable than a 10.00 one. I would like to see Jim West be investigated and audited on his dubious business deals.
