WALDEN MEADOWS COMMUNITY COOP PROPOSED AMENDMENT #1

This amendment addresses the Company's concern with the operating condition of the Company's two (2) well pumps. The well pumps were constructed in 1982 and 2002. No records exist that indicate that these well pumps were ever serviced. The Company believes that these well pumps must be tested to assess their operating condition and that their reconditioning may be part of the Company's next rate case. The Company received a quote of \$1,250 to test both well pumps and determine their operational condition.
