#### BEFORE THE ARIZONA CORPORATION COMMISSION

IN THE MATTER OF THE APPLICATION OF LIBERTY UTILITIES (LITCHFIELD PARK WATER & SEWER) CORP. FOR A CERTIFICATE OF CONVÉNIENCE AND NECESSITY TO PROVIDE WASTEWATER UTILITY SERVICE IN MARICOPA COUNTY, ARIZONA.

DOCKET NO: SW-01428A-17-

APPLICATION FOR EXTENSION OF CERTIFICATE OF CONVENIENCE AND NECESSITY

In accordance with A.A.C. R14-2-602, Liberty Utilities (Litchfield Park Water & Sewer) Corp. ("Liberty Utilities" or "Applicant"), an Arizona public service corporation. applies to the Arizona Corporation Commission ("Commission") for an order approving the extension of Liberty Utilities' existing Certificate of Convenience and Necessity ("CC&N") for wastewater utility service to include the Falcon Ridge and Falcon View II developments located in certain defined portions of Maricopa County, Arizona.

## FALCON RIDGE AND FALCON VIEW II

1. Falcon Ridge is an approximately 55.3-acre property generally bound by Glendale Avenue on the north, Maryland Avenue on the south, 129th Avenue on the west and 127th Avenue on the east. Falcon View II is an approximately 9.84-acre property that

is contiguous with the Falcon Ridge property with 127<sup>th</sup> Avenue as its western boundary and 126<sup>th</sup> Avenue as its eastern boundary. Both properties are within Section 11 of Township 2 North, Range 1 West of the Gila and Salt River Meridian (the "Properties").

- 2. Falcon Ridge consists of 178 residential lots and is owned by EH CCF Liberty, LLC and EH RKCF Liberty, LLC.<sup>1</sup> The Maricopa County Board of Supervisors approved the Falcon Ridge preliminary plat and zoning on January 11, 2017. Falcon View II consists of 22 residential lots and is owned by Everest Falcon View II, LLC. The Maricopa County Planning and Zoning Commission approved the Preliminary Plat for Falcon View II on March 10, 2016. The Improvement plans and Final Plat for Falcon View II are currently in the review phase with Maricopa County.
- 3. EH CCF Liberty, LLC, EH RKCF Liberty, LLC and Everest Falcon View II, LLC have requested that wastewater utility service to the Properties be provided by Liberty Utilities. All wastewater flows generated by the Properties will be delivered to Liberty Utilities' existing Palm Valley Water Reclamation Facility ("PVWRF"). It is anticipated that the Properties will have a total of 200 residential dwelling units at build out.

#### **CC&N EXTENSION APPLICATION**

4. Applicant's legal name, mailing address and telephone number are: Liberty Utilities (Litchfield Park Water & Sewer) Corp., 12725 W. Indian School Road, Suite D-101, Avondale, Arizona, (623) 935-9367. Applicant is a public service corporation formed for the purpose of providing water and wastewater utility service in Maricopa County, Arizona. Liberty Utilities is a private water and wastewater utility company in the Phoenix Active Management Area. Liberty Utilities holds CC&Ns issued by the Commission authorizing Liberty Utilities to provide public water and wastewater

<sup>&</sup>lt;sup>1</sup> There is no affiliation of any kind between the landowner/developer and Liberty Utilities; the similarity in names is mere coincidence.

utility service within its certificated service areas. Liberty Utilities' CC&Ns generally encompass an approximately 20 square mile area west of the Agua Fria River between Luke Air Force Base and interstate highway I-10.

- 5. The name, address and corporate structure for Liberty Utilities are set forth in the attached **Exhibit 1**, including the amount of stock authorized and subsequently issued. The names, titles and mailing addresses for Liberty Utilities' officers and directors are also set forth on the attached **Exhibit 1**. Applicant does not own an interest in any other utility companies. Liberty Utilities' parent company owns five other public service corporations providing water and/or wastewater utility service in Arizona.
- 6. Liberty Utilities' Certificate of Good Standing from the Commission is attached hereto as **Exhibit 2**.
- 7. Liberty Utilities' management contact is Matthew Garlick, President, 12725 W. Indian School Road, Suite D-101, Avondale, AZ 85392. Mr. Garlick's telephone number is (623) 298-3763 and his email address is Matthew.Garlick@LibertyUtilities.com.
- 8. Liberty Utilities' operator certified by the Arizona Department of Environmental Quality ("ADEQ") is Rick Rhoads, Senior Operations Manager, whose business address is 12725 W. Indian School Road, Suite D-101, Avondale, AZ 85392. Mr. Rhoads' telephone number is (623) 298-4824. Mr. Rhoads is also the on-site manager for Liberty Utilities.
  - 9. Liberty Utilities' attorneys for this application are as follows:

Jay L. Shapiro SHAPIRO LAW FIRM 1819 E. Morten Avenue, Suite 280 Phoenix, Arizona 85020 Telephone: (602) 559-9575 Email: Jay@shapslawaz.com

PROFESSIONAL CORPORATION

#### Todd C. Wiley General Counsel (West Region) – Liberty Utilities 12725 W. Indian School Road, Suite D-101 Avondale, AZ 85392 Telephone: (623) 240-2087

Email: Todd.Wiley@LibertyUtilities.com

All case filings, correspondence, data requests and/or other requests for information should be directed to both Mr. Shapiro and Mr. Wiley, as well as to Whitney Birk at whitney@shapslawaz.com.

- 10. The area covered by this Application is the Falcon Ridge and Falcon View II developments, both located in Maricopa County, Arizona ("Extension Area"). The legal description for the Extension Area is attached as **Exhibit 3**.
- 11. The developments are owned by EH CCF Liberty, LLC, EH RKCF Liberty, LLC and Everest Falcon View II, LLC. EH CCF Liberty, LLC, EH RKCF Liberty, LLC and Everest Falcon View II, LLC have requested that wastewater utility service to the Property be provided by Liberty Utilities. As such, there are no landowners within the Extension Area who did not request an extension of wastewater utility service by Liberty Utilities.
- 12. The City of Glendale and the City of Litchfield Park are the closest municipalities. The City of Surprise, City of Peoria, City of Phoenix, City of Avondale, and City of Goodyear are also located within five miles of the Extension Area. None of these cities provides wastewater service within one mile of the Extension Area.
- 13. Luke Air Force Base operates a wastewater system within one mile of the Extension Area.
- 14. Carollo Engineers prepared an engineering report, titled Project Memorandum, dated March 22, 2016, evaluating the sewer system needed to serve the Properties.<sup>2</sup> The Project Memorandum is attached as **Exhibit 4.** As described in the

<sup>&</sup>lt;sup>2</sup> Note: At the time the engineering report was filed the number of planned lots was 179

24

25

26

Project Memorandum, both Falcon Ridge and Falcon View II will connect to Liberty Utilities' existing wastewater collection system adjacent to the projects. The facilities proposed to be constructed are necessary on-site wastewater facilities and an off-site force main. The on-site wastewater facilities for Falcon Ridge include 8,247 lineal feet of 8" diameter gravity sewer main, 33 manholes, 178 - 4" sewer services and two connections to Liberty Utilities' existing wastewater collection system. The off-site facilities for Falcon Ridge consists of an approximately 1-mile long extension of the 6" force main serving the Casitas Bonitas Lift Station. The on-site wastewater facilities for Falcon View II include 1,334 lineal feet of 8" diameter gravity sewer main, five manholes, 22 - 4" sewer services and two connections to Liberty Utilities' existing wastewater collection system.

- 15. The estimated total cost for construction of facilities required to provide wastewater service to the Extension Area is attached as **Exhibit 5**. Construction of the required on-site facilities will be financed through advances in aid of construction pursuant to line extension agreements. Construction of any required off-site facilities (El Mirage Road and downstream to and including the PVWRF) will be financed using either contributions in aid of construction from hook-up fees or paid in capital.
- 16. A general Statement of Financial Condition for Liberty Utilities is attached as Exhibit 6.
- 17. For service to the Extension Area, Liberty Utilities will be charging its existing rates and charges as approved by the Commission. A copy of Liberty Utilities' existing tariff schedule is attached as Exhibit 7.

for Falcon Ridge and 23 for Falcon View II for a total of 202 lots. As previously described, the current actual lot counts are 178 for Falcon Ridge and 22 for Falcon View II for a total of 200 lots. The difference in lot counts is not material and does not impact the validity of the engineering report or change the requirements for any facilities.

- 18. Liberty Utilities' estimated annual operating revenue and operating expenses, projected income statements, projected balance sheets and plant expenditures for the first five years of operation in the Extension Area is attached as **Exhibit 8**.
- 19. Falcon View II is planned to be constructed in a single-phase beginning in the 4<sup>th</sup> quarter of 2017. Construction is expected to be completed by the 2<sup>nd</sup> quarter of 2018. Falcon Ridge is planned to be constructed in two phases. Phase I, located north of Ocotillo Road and containing 34 lots, is planned to begin construction in the 1<sup>st</sup> quarter of 2018 and be completed by the 3<sup>rd</sup> quarter of 2018. The second phase of Falcon Ridge, containing 144 lots, is planned to begin construction in the 1<sup>st</sup> quarter of 2018 and be completed in the 3<sup>rd</sup> quarter of 2018.
- 20. The written request for extension of wastewater utility service to the Extension Area by the owners of the Properties is attached as **Exhibit 9**.
- 21. Detailed maps of Liberty Utilities' existing wastewater CC&N area and the Extension Area are attached as **Exhibit 10**. **Exhibit 10** includes five separate maps, including (1) CC&N Extension and Nearby Service Areas within 1 mile, (2) CC&N Extension and Nearby Municipalities within 5 miles, (3) CC&N Extension and Land Ownership, (4) Falcon View II Wastewater Facilities Map, and (5) Falcon Ridge Wastewater Facilities Map. These maps show the Extension Area and municipal corporate limits that overlap with or are within five miles of the Extension Area, and the Extension Area and its relationship to the service areas of other public service corporations, municipalities and/or districts currently providing water or wastewater service within one mile of the Extension Area with identification of the entity providing service and each type of service being provided. These maps also include:

- the boundaries of the Extension Area with the total acreage noted.
- the land ownership boundaries within the Extension Area with the acreage of each separately owned parcel within the Extension Area noted.
- the owner of each parcel within the Extension Area.
- evidence that there are not any known wastewater service connections already being provided service by the Applicant within the Extension Area.
- the location of all parcels for which a copy of a request for service has been submitted.

These maps further show the proposed location of the principal components of the wastewater system planned for the Extension Area.

- 22. A copy of the form of notice to be sent to municipal managers/administrators for municipalities within a five-mile radius of the Extension Area is attached as **Exhibit 11**. Liberty Utilities will provide such other such public notice as the Commission directs.
- 23. The Extension Area is already included within Liberty Utilities' Maricopa Association of Governments ("MAG") 208 Water Quality Management Plan.
- 24. The estimated numbers of customers to be served during the first five years of wastewater utility service to the Extension Area are shown in attached **Exhibit 12**.
- 25. Liberty Utilities is submitting a franchise application to the Maricopa County Board of Supervisors concurrently with this filing. Liberty Utilities anticipates the franchise application to go before the Board at the next formal meeting.
- 26. ADEQ Approvals to Construct issued for facilities to be constructed in the Extension Area will be provided to the Commission as soon as Liberty Utilities receives them.

- 27. The Extension Area is currently within Valley Utilities Water Company, Inc.'s water service area. Applicant will treat all wastewater generated within the Extension Area at Liberty Utilities' PVWRF. Treated effluent either will be delivered for direct use or recharged into the regional aquifer at Liberty Utilities' Aquifer Replenishment Facility.
- 28. ADEQ no longer issues compliance status reports directly to wastewater providers. Applicant will send a written request to ADEQ asking that the agency send the most current compliance status report for Liberty Utilities directly to the Commission.
- 29. Liberty Utilities' Aquifer Protection Permit issued by ADEQ is attached as **Exhibit 13**.
- 30. Liberty Utilities' Wastewater Flows Data Sheet for the period April 2016 to March 2017 is attached as **Exhibit 14**.
  - 31. A notarized signature on behalf of Applicant is attached as Exhibit 15.
- 32. For the reasons stated herein, Liberty Utilities maintains that this Application is in the public interest and should be granted. There is a need for regulated wastewater utility service to the Extension Area in Maricopa County to ensure the public health, and foster orderly growth.

WHEREFORE, Liberty Utilities respectfully requests the following:

- A. That the Commission consider and act upon this Application as timely as possible and to schedule a hearing, if necessary, on this matter;
- B. That upon completion of said hearing, the Commission enter an Order approving this Application and extending Liberty Utilities' CC&N to include the Extension Area as shown on **Exhibit 3**; and,
- C. That the Commission grant such other and further relief as may be appropriate under the circumstances herein.

RESPECTFULLY SUBMITTED this 27th day of April, 2017. 1 2 SHAPIRO LAW FIRM, P.C. 3 4 By: Jay L/Shapiro 1819 E. # ARIZONA CORPORATION COMMISSION CERTIFICATE OF GOOD STANDING

#### **FOR**

LIBERTY UTILITIES (LITCHFIELD PARK WATER & SEWER) CORP.

# STATE OF ARIZONA

# Office of the CORPORATION COMMISSION

#### CERTIFICATE OF GOOD STANDING

To all to whom these presents shall come, greeting:

I, Ted Vogt, Executive Director of the Arizona Corporation Commission, do hereby certify that

\*\*\*LIBERTY UTILITIES (LITCHFIELD PARK WATER & SEWER) CORP. \*\*\*

a domestic corporation organized under the laws of the State of Arizona, did incorporate on September 21 1954.

I further certify that according to the records of the Arizona Corporation Commission, as of the date set forth hereunder, the said corporation is not administratively dissolved for failure to comply with the provisions of the Arizona Business Corporation Act; and that its most recent Annual Report, subject to the provisions of A.R.S. sections 10-122, 10-123, 10-125 & 10-1622, has been delivered to the Arizona Corporation Commission for filing; and that the said corporation has not filed Articles of Dissolution as of the date of this certificate.

This certificate relates only to the legal existence of the above named entity as of the date issued. This certificate is not to be construed as an endorsement, recommendation, or notice of approval of the entity's condition or business activities and practices.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the Arizona Corporation Commission. Done at Phoenix, the Capital, this 26th day of April, 2017, A. D.

Ted Vogt, Executive Director

**ENGINEERING REPORT** PROJECT MEMORANDUM

SHAPIRO LAW FIRM A PRO-15012 NAL CORPORATION

4600 East Washington St., Suite 500 Phoenix, Arizona 85034 P. 602.263.9500 F. 602.265.1422

### PROJECT MEMORANDUM

Project Name: Everest Holdings - Liberty Utilities Sewer Study Date: March 22, 2016

Client: Everest Holdings Project Number: 9760A.00

Prepared By: Richard Humpherys, PE
Reviewed By: Eric McLeskey, PE

Subject: Liberty Utilities Sewer Capacity to serve the Falcon Ridge and Falcon View II

Developments

Distribution: Ed DePinto, Everest Holdings, Inc.

#### 1.0 BACKGROUND

Everest Holdings has proposed two residential developments (Developments) between Glendale Avenue and Bethany Home Road on 127th Avenue. The North and South Falcon Ridge Developments will have 179 lots and the Falcon View II Development will have 23 lots. For convenience in this project memorandum, the portion of the Falcon Ridge Development that will be served by the Liberty Utilities' Casitas Bonitas Lift Station is referred to as North Falcon Ridge and the remainder is referred to as South Falcon Ridge. The South Falcon Ridge and Falcon View II Developments will be served through sewer interceptors along EI Mirage Road. Figure 1 shows the layout of the Developments and the way that the collection system will initially be connected. The Developments will receive sanitary sewer service from Liberty Utilities. The purpose of this memorandum is to evaluate the capacity of the sewer infrastructure that would serve the Developments to ensure sufficient capacity and to identify the locations where the sanitary sewer pipes from the Developments will connect to the Liberty Utilities collection system.

#### 2.0 HYDRAULIC EVALUATION

Liberty Utilities calculates wastewater flows in terms of Equivalent Dwelling Units (EDUs) as follows:

wastewater EDU = 320 gpd (100 gpcd x 3.2 people per EDU) or 0.222 gpm per EDU

#### PROJECT MEMORANDUM

#### 2.1 Wastewater Load Estimates

There will be 202 total single family residential lots in the Developments. At 3.2 people per dwelling and using Liberty Utilities' design criteria of 100 gallons per capita per day (gpcd) of wastewater flow the collection system needs to be sized to convey an average daily flow of 64,640 gallons per day (gpd). Up to 34 lots will be in the North Falcon Ridge Development. Table 1 shows the flows associated with each development. Peak hour loads are assumed to be three times the average daily load, consistent with Liberty Utility's Development Guide.

Table 1 Wastewater Flow Estimates								
Development Area	Lots	Person/ DU	Unit Load (gpcd)	Average Daily Flow (gpd)	Average Daily Flow (gpm)	Peak Hour Flow (gpm)		
North Falcon Ridge (To Casitas Bonitas Lift Station)	34	3.2	100	10,880	7.6	22.7		
South Falcon Ridge	145	3.2	100	46,400	32.2	96.7		
Falcon View II	23	3.2	100	7,360	5.1	15.3		
Total	202	7=1	_	64,640	45.2	134.6		

#### 2.2 Sewer Capacity

Pipe capacity is evaluated by dividing the peak flow water depth (d) by the pipe diameter (D). For new pipes, the pipes are sized to have a d/D no greater than 0.75. For existing pipes, a parallel or upsize pipe recommendation is made when d/D exceeds 0.9. The Liberty Utilities' H<sub>2</sub>OMap Sewer model was used to predict the flows and flow capacity in the collection system.

#### 2.2.1 North Falcon Ridge

The gravity main downstream from the Casitas Bonitas Lift Station is capacity limited. For this reason, Liberty Utilities will only allow up to 34 lots to be developed that will flow into the lift station. The Casitas Bonitas Lift Station has two pumps with a total capacity in excess of 500 gpm, so a single pump can produce a flow of about 250 gpm. The force main from the lift station discharges to a manhole that surcharges when the pump is operating.

Based on model results the gravity main downstream of the Casitas Bonitas Lift Station has insufficient capacity to convey existing or future flows from the lift station. Figure 2 includes results from the model showing pipes downstream from the Casitas Bonitas Lift Station that are out of capacity. The actual peak flows do not increase downstream from the lift station as the number of housing units served increases. The frequency of lift station on/off cycles goes up with the increased flows.

#### PROJECT MEMORANDUM

The force main from the Casitas Bonitas Lift Station can be lengthened and reconfigured to discharge into a 15-inch interceptor along Dysart Road beginning at Dysart 1/2 mile south of Bethany Home Road. This will alleviate the capacity limitations for flows coming from the existing developments plus additional flows from the North Falcon Ridge Development. Figure 3 shows the proposed force main with adequate capacity downstream from the end of the force main.

#### 2.2.2 South Falcon Ridge and Falcon View II

Wastewater from lots in South Falcon Ridge will flow south through an 8-inch main on Bethany Home road, just west of 127th Avenue, through the existing downstream system and eventually connect to the existing 10-inch interceptor running south along El Mirage Road. The Falcon View Il Development will discharge wastewater into the Falcon View Development located immediately to the east. Wastewater will then go into the interceptor along El Mirage Road.

The model shows that sewer pipes along Camelback Road and the 127th Avenue alignment have insufficient capacity to convey existing or future flows when the future Marbella Ranch flows are conveyed through the same pipes. Figure 2 shows the pipes that are out of capacity when the entire wastewater flow from both the existing and future Developments plus Marbella Ranch is conveyed, showing the capacity limitations in the Liberty collection system.

The South Falcon Ridge and Falcon View II Developments are expected to start developing before the Marbella Ranch sewer pipe is constructed. Wastewater flows will go into the 10-inch sewer in El Mirage Road until the Marbella Ranch pipe is constructed.

After the Marbella Ranch sewer pipeline is in place, the flows from the two developments could go into a proposed interceptor that will serve the future Marbella Development. This interceptor will be 12 inches at the point that the Falcon View II Development connects, and will increase to 18 inches at the point where flows from the South Falcon Ridge Development connects to this interceptor. This interceptor will convey wastewater flows south along El Mirage Road to Indian School Road, then west along Indian School Road towards the Palm Valley Water Reclamation Plant. One pipe segment is still shown as being out of capacity along Indian School Road. Periodic flow monitoring of this pipe section is recommended as development progresses, and replacement is recommended if flows begin to exceed the capacity of this pipe. Figure 3 shows the improvements to the collection system that have sufficient capacity to convey wastewater flows to the treatment plant.

#### PROJECT MEMORANDUM

#### 3.0 RECOMMENDATIONS

- 1. Up to 34 lots of the Falcon Ridge North Development can be developed that would discharge wastewater to the Casitas Bonitas Lift Station. Capacity is already reached in the gravity main downstream from the lift station's force main. In order to eliminate the capacity limitations for flows coming from the existing and future projects, the force main will ultimately need to be extended to convey wastewater flows to a 15-inch interceptor at Dysart Road and 1/2 mile south of Bethany Home Road.
- 2. Wastewater from the remaining lots of the Falcon Ridge South and Falcon View II Developments can be conveyed through 8-inch mains to El Mirage Road and initially into a 10-inch main in El Mirage Road. After the Marbella sewer pipe is constructed, the wastewater flows can be moved to the 18-inch future interceptor along El Mirage Road that will also serve the Marbella Development that will be located north of Glendale Road.

DOCKET NO. SW-01428A-13-0042 ET AL.

Cancelling Sheet No. \_\_

# Applies to all WASTEWATER service areas PART THREE STATEMENT OF CHARGES FOR WASTEWATER SERVICE

#### II. TAXES AND ASSESSMENTS

In addition to all other rates and charges authorized herein, the Company shall collect from its customers all applicable sales, transaction, privilege, regulatory or other taxes and assessments as may apply now or in the future, per Rule R14-2-608(D)(5).

Issued: April 30, 2014

Effective: May 1, 2014

### Applies to all WASTEWATER service areas PART THREE STATEMENT OF CHARGES FOR WASTEWATER SERVICE

#### III. PERMITTED COSTS

- A. Costs shall be verified by invoice.
- B. For services that are provided by the Company at cost, costs shall include labor, materials, other charges incurred, and overhead. However, prior to any such service being provided, the estimated cost of such service will be provided by the Company to the customer. After review of the cost estimate, the customer will pay the amount of the estimated cost to the Company.
- C. In the event that the actual cost is less than the estimated cost, the Company will refund the excess to the customer within 30 days after completion of the provision of the service or after Company's receipt of invoices, timesheets or other related documents, whichever is later.
- D. In the event the actual cost is more than the estimated cost, the Company will bill the customer for the amount due within 30 days after completion of the invoices, timesheets or other related documents, whichever is later. The amount so billed will be due and payable 30 days after the invoice date.
- E. At the customer's request, the Company shall make available to the customer all invoices, timesheets or related documents that support the cost for providing such service.
- F. Permitted costs shall include any Federal, State or local taxes that are or may be payable by the Company as a result of any tariff or contract for wastewater facilities under which the Customer advances or contributes funds or facilities to the Company.

Issued: April 30, 2014

## Applies to all WASTEWATER service areas PART FOUR STATEMENT OF TERMS AND CONDITIONS FOR WASTEWATER SERVICE

#### I. CUSTOMER DISCHARGE TO SYSTEM

#### A. Service Subject to Regulation

The Company provides wastewater service using treatment and collection facilities that are regulated by numerous county, state and federal Statutes and Regulations. Those Regulations include limitations as to domestic strength wastewater and the type of wastewater that may be discharged into the system by any person directly or indirectly connected to the plant.

#### B. Waste Limitations

The Company has established the permissible limits of concentration as domestic strength wastewater and will limit concentration for various specific substances, materials, waters, or wastes that can be accepted in the sewer system, and to specify those substances, materials, waters, or wastes that are prohibited from entering the sewer system. Each permissible limit so established shall be placed on file in the business office of the Company, with a copy filed with the Commission. No person shall discharge, or cause to be discharged, any new sources of inflow including, but not limited to, storm water, surface water, groundwater, roof runoffs, subsurface drainage, cooling water, or polluted industrial process waters into the sanitary sewer. The Company will require an affidavit from all commercial and industrial customers, and their professional engineer, stating that the wastewater discharged to the system does not exceed domestic strength.

#### C. Inspection and Right of Entry

Every facility that is involved directly or indirectly with the discharge of wastewater to the Treatment Plant may be inspected by the Company as it deems necessary. These facilities shall include but not be limited to sewer; sewage pumping plants; all processes; devices and connection sewer; and all similar sewerage facilities. Inspections may be made to determine that such facilities are maintained and operated properly and are adequate to meet the provisions of these rules. Inspections may include the collection of samples. Authorized personnel of the Company shall be provided immediate access to all of the above facilities or to other facilities directly or indirectly connected to the Treatment Plant at all reasonable times including those occasioned by emergency conditions. Any permanent or temporary obstruction to easy access to the user's facility to be inspected shall promptly be removed by the facility user or owner at

Issued: April 30, 2014

### Applies to all WASTEWATER service areas PART FOUR STATEMENT OF TERMS AND CONDITIONS FOR WASTEWATER SERVICE

the written or verbal request of the Company and shall not be replaced. No person shall interfere with, delay, resist or refuse entrance to an authorized Company representative attempting to inspect any facility involved directly or indirectly with a discharge of wastewater to the Treatment Plant. Adequate identification shall be provided by the Company for all inspectors and other authorized personnel and these persons shall identify themselves when entering any property for inspection purposes or when inspecting the work of any contractor.

All transient motor homes, travel trailers and other units containing holding tanks must arrive at the Company's service area in an empty condition. Inspection will be required of said units prior to their being allowed to hookup to the wastewater system.

#### D. Termination of Water Service for Violation of Wastewater Rules and Regulations

The Company is authorized to discontinue water service to any person connected to both its water and sewer systems who violates the Company's wastewater terms and conditions as set forth in this PART FOUR or in any way creates a public health hazard or the likelihood of such a public health hazard. This termination authority does not apply to non-payment for water or wastewater services.

Issued: April 30, 2014

Cancelling Sheet No. \_

## Applies to all WASTEWATER service areas PART FOUR STATEMENT OF TERMS AND CONDITIONS FOR WASTEWATER SERVICE

#### II. RULES AND REGULATIONS

The Company has adopted the Rules and Regulations established by the Commission as the basis for its operating procedures. A.A.C. R14-2-601 through A.A.C. R14-2-609 will be controlling of Company procedures, unless specifically approved tariffs or Commission Order(s) provide otherwise.

Issued: April 30, 2014 Effective: May 1, 2014
ISSUED BY:

# Applies to all WATER and WASTEWATER service areas PART FIVE ALTERNATE RATES FOR WATER AND WASTEWATER (ARWW) DOMESTIC SERVICE – SINGLE FAMILY ACCOMMODATION

#### **APPLICABILITY**

Applicable to residential water and wastewater service for domestic use rendered to low-income households where the customer meets all the program qualifications and special conditions of this rate schedule.

#### TERRITORY

Within all customer service areas served by Liberty Utilities (Litchfield Park Water & Sewer) Corp. ("Liberty Utilities").

#### RATES

Thirty percent (30%) discount applied to the regular filed tariff.

#### PROGRAM OUALIFICATIONS

- The Liberty Utilities bill must be in your name and the address must be your primary residence or you must be a tenant receiving water service by a submetered system.
- You may not be claimed as a dependent on another person's tax return.
- You must reapply each time you move residences.
- You must renew your application once every two (2) years, or sooner, if requested.
- 5. You must recertify each year by submitting a declaration attesting to your continuing eligibility, and provide one of the following items as proof of eligibility: 1) copy of tax return from prior year; or 2) copy of W2 form from prior year; or 3) copy of welfare / food stamp cards.
- You must notify Liberty Utilities within thirty (30) days if you become ineligible for ARWW.
- Your total gross annual income of all persons living in your household cannot exceed the income levels below:

Issued: April 30, 2014

# Applies to all WATER and WASTEWATER service areas PART FIVE ALTERNATE RATES FOR WATER AND WASTEWATER (ARWW) DOMESTIC SERVICE – SINGLE FAMILY ACCOMMODATION

#### Effective January 1, 2014

No. of Person	<b>Total Gross</b>
in Household	Annual Income
1	\$17,505
2	\$23,595
3	\$29,685
4	\$35,775
5	\$41,865
6	\$47 955

For each additional person residing in the household, add \$6,090

For the purpose of the program the "gross household income" means all money and non cash benefits, available for living expenses, from all sources, both taxable and non taxable, before deductions for all people who live in your home. This includes, but is not limited to:

Wages or salaries Interest or dividends from: Savings account, stocks or bonds Unemployment benefits TANF (AFDC) Pensions Gifts Social Security, SSI, SSP Scholarships, grants, or other aid used for living expenses Disability payments Food Stamps Insurance settlements Rental or royalty income Profit from self-employment (IRS form Schedule C, Line 29) Worker's Compensation Child Support Spousal Support

Issued: April 30, 2014

Cancelling Sheet No. \_

# Applies to all WATER and WASTEWATER service areas PART FIVE ALTERNATE RATES FOR WATER AND WASTEWATER (ARWW) DOMESTIC SERVICE – SINGLE FAMILY ACCOMMODATION

#### SPECIAL CONDITIONS

- Application: An application on a form authorized by the Commission is required for each request for service under this schedule. A customer must reapply every two (2) years.
- 2. Recertification: A customer enrolled in the ARWW program must, each year, recertify by submitting a declaration attesting to continuing eligibility, and provide one of the following items as proof of eligibility: 1) copy of tax return from prior year; or 2) copy of W2 form from prior year; or 3) copy of welfare / food stamp cards.
- Commencement of Rate: Eligible customers whose applications have been approved shall be billed on this schedule commencing with the next regularly scheduled billing period that follows receipt of application by Liberty Utilities.
- 4. Verification: Information provided by the applicant is subject to verification by Liberty Utilities. Refusal or failure of a customer to provide documentation of eligibility acceptable to Liberty Utilities, upon request by Liberty Utilities, shall result in removal from this rate schedule.
- 5. Notice from Customer: It is the customer's responsibility to notify Liberty Utilities if there is a change of eligibility status.
- Rebilling: Customers may be re-billed retroactively for periods of ineligibility under the applicable rate schedule.
- 7. Master-metered: A reduction will be calculated in the bill of master-metered customers, who have sub-metered tenants that meet the income eligibility criteria, so an equivalent discount (30%) can be passed through to eligible customer(s).
- 8. Participation Cap: The ARWW program is limited to 5,000 water division customers and 5,000 wastewater division customers. Applications will be reviewed and approved on a first come, first served basis. Applicants will be placed on a waiting list if the participation cap has been met.

Greg Sorensen, President - Arizona Liberty Utilities (Litchfield Park Water & Sewer) Corp. 12725 W. Indian School Road, Suite D-101 Avondale, AZ 85392 DOCKET NO. SW-01428A-13-0042 ET AL.

Cancelling Sheet No.

#### Liberty Utilities (Litchfield Park Water & Sewer) Corp. Alternate Rates for Water and Wastewater (ARWW)

#### Applicability

Applicable to residential water and wastewater service for domestic use rendered to low-income households where the customer meets all the Program Qualifications and Special Conditions of this rate schedule.

#### Territory

Within all customer service areas served by Liberty Utilities (Litchfield Park Water & Sewer) Corp.

#### Discount

Thirty percent (30%) discount applied to the regular filed tariff. The discount will be applied to the customer's total bill before any adjustments and application of any other taxes, credit, penalties or fees.

#### **Program Qualifications**

- The Liberty Utilities account must be in your name and the address must be your primary residence in our service area or you must be a tenant receiving water service by a sub-metered system.
- You may not be claimed as a dependent on another person's tax return.
- You must reapply each time you move residences.
- You must renew your application once every two (2) years or sooner if requested.
- You must recertify each year by submitting a declaration attesting to your continuing eligibility, and provide one of the following items as proof of eligibility: 1) copy of tax return from prior year, or 2) copy of W2 form from prior year, or 3) copy of welfare/food stamp cards.
- You must notify Liberty Utilities within thirty (30) days if you become ineligible for ARWW.
- Your total gross annual income of all persons living in your household cannot exceed the income levels provided on the
  application.

#### **Special Conditions**

- You must fill out and sign the ARWW Application completely. Incomplete information will delay your discount. You must reapply every two (2) years.
- You must recertify your enrollment in the ARWW annually by submitting a Declaration of Eligibility and providing one of
  the following items as proof of eligibility: 1) copy of tax return from prior year, or 2) copy of W2 form from prior year, or
  3) copy of welfare/food stamp cards.
- Customers shall be billed on this schedule commencing with the next regularly scheduled billing period that follows the
  receipt and approval of the application by Liberty Utilities.
- Documentation of your gross annual income must be provided to Liberty Utilities for verification of eligibility for ARWW.
   Refusal or failure to provide documentation of acceptable eligibility to Liberty Utilities shall result in removal from this rate schedule.
- It is the customer's responsibility to notify Liberty Utilities if there is a change in eligibility status.
- You may be re-billed for any periods of ineligibility under the applicable rate schedule.
- Master-metered customers who have sub-metered tenants will receive a reduction in the billing. Sub-metered tenants must
  qualify and meet the income eligibility criteria so an equivalent discount (30%) can be passed through to eligible
  customer(s).
- The ARWW program is limited to 5,000 water division customers and 5,000 wastewater division customers.

#### How to Submit Completed ARWW Application and/or Declaration of Eligibility

Mail, Fax or Email your ARWW Application and Declaration of Eligibility to: Liberty Utilities (Litchfield Park Water & Sewer) Corp. 12725 W. Indian School Rd. Ste. D101 Avondale, AZ 85392

Fax: 623-935-1020

Email: customerserviceavondale@libertywater.com

#### PART SIX HOOK-UP FEE TARIFF

#### WASTEWATER HOOK-UP FEE

#### I. Purpose and Applicability

The purpose of the off-site facilities hook-up fees payable to Liberty Utilities (Litchfield Park Water & Sewer) Corp. — Wastewater Division (the "Company") pursuant to this tariff is to equitably apportion the costs of constructing additional off-site facilities to provide wastewater treatment and disposal facilities among all new service laterals. These charges are applicable to all new service laterals undertaken via Collection Main Extension Agreements, or requests for service not requiring a Collection Main Extension Agreement, entered into after the effective date of this tariff. The charges are one-time charges and are payable as a condition to Company's establishment of service, as more particularly provided below.

#### II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-601 of the Arizona Corporation Commission's ("Commission") rules and regulations governing sewer utilities shall apply interpreting this tariff schedule.

"Applicant" means any party entering into an agreement with Company for the installation of wastewater facilities to serve new service laterals, and may include Developers and/or Builders of new residential subdivisions, and industrial or commercial properties.

"Company" means Liberty Utilities (Litchfield Park Water & Service) Corp. - Wastewater Division.

"Collection Main Extension Agreement" means an agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of wastewater facilities necessary to serve new service laterals, or install wastewater facilities to serve new service laterals and transfer ownership of such wastewater facilities to the Company, which agreement does not require the approval of the Commission pursuant to A.A.C. R-14-2-606, and shall have the same meaning as "Wastewater Facilities Agreement."

"Off-site Facilities" means the wastewater treatment plant, sludge disposal facilities, effluent disposal facilities and related appurtenances necessary for proper operation, including engineering and design costs. Offsite facilities may also include lift stations, force mains, transportation mains and related appurtenances necessary for proper operation if these facilities are not for the exclusive use of the applicant and benefit the entire wastewater system.

"Service Lateral" means and includes all service laterals for single-family residential, commercial, industrial or other uses.

Issued: April 30, 2014

#### III. Wastewater Hook-up Fee

For each new residential service lateral, the Company shall collect a Hook-Up Fee of \$1,800 based on the Equivalent Residential Unit ("ERU") of 320 gallons per day. Commercial and industrial applicants shall pay based on the total ERUs of their development calculated by dividing the estimated total daily wastewater capacity usage needed for service using standard engineering standards and criteria by the ERU factor of 320 gallons per day. For "Active Adult" communities with demonstrated age-restricted zoning and/or CCRs providing for age-restricted living, the Hook-Up Fee shall be \$1,070, based on an ERU factor of 190 gallons per day.

#### IV. Terms and Conditions

- (A) <u>Assessment of One Time Off-Site Facilities Hook-up Fee</u>: The off-site facilities hook-up fee may be assessed only once per parcel, service lateral, or lot within a subdivision (similar to a service lateral installation charge).
- (B) <u>Use of Off-Site Facilities Hook-up Fee</u>: Off-site facilities hook-up fees may only be used to pay for capital items of Off-site Facilities, or for repayment of loans obtained to fund the cost of installation of off-site facilities. Off-site hook-up fees shall not be used to cover repairs, maintenance, or operational costs. The Company shall record amounts collected under the tariff as CIAC; however, such amounts shall not be deducted from rate base until such amounts have been expended for plant.

#### (C) Time of Payment:

- (1) In the event that the person or entity that will be constructing improvements ("Applicant", "Developer" or "Builder") is otherwise required to enter into a Collection Main Extension Agreement, payment of the fees required hereunder shall be made by the Applicant, Developer or Builder within 15 days of execution of a Main Extension Agreement.
- (2) In the event that the Applicant, Developer or Builder for service is not required to enter into a Collection Main Extension Agreement, the Hook-Up Fee charges hereunder shall be due and payable at the time wastewater service is requested for the property.
- (D) Off-Site Facilities Construction by Developer: Company and Applicant, Developer, or Builder may agree to construction of off-site facilities necessary to serve a particular development by Applicant, Developer or Builder, which facilities are then conveyed to Company. In that event, Company shall credit the total cost of such off-site facilities as an offset to off-site hook-up fees due under this Tariff. If the total cost of the off-site facilities constructed by Applicant, Developer or Builder and conveyed to Company is less than the applicable off-site hook-up fees under this Tariff, Applicant, Developer or Builder shall pay the remaining amount of off-site hook-up fees owed hereunder. If the total cost of the off-site facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable off-site hook-up fees under this Tariff, Developer or Builder shall be refunded the difference upon acceptance of the off-site facilities by the Company.

Issued: April 30, 2014

- (E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to make an advance commitment to provide or actually provide wastewater service to any Developer, Builder or other applicant for service in the event that the Developer, Builder or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company connect service or otherwise allow service to be established if the entire amount of any payment has not been paid.
- (F) <u>Large Subdivision and/or Development Projects</u>: In the event that the Applicant, Developer or Builder is engaged in the development of a residential subdivision and/or development containing more than 150 lots, the Company may, in its reasonable discretion, agree to payment of off-site hook-up fees in installments. Such installments may be based on the residential subdivision and/or development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's, Developer's or Builder's construction schedule and water service requirements. In the alternative, the Applicant, Developer, or Builder shall post an irrevocable letter of credit in favor of the Company in a commercially reasonable form, which may be drawn by the Company consistent with the actual or planned construction and hook up schedule for the subdivision and/or development.
- (G) Off-Site Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the off-site facilities hook-up fee tariff shall be non-refundable contributions in aid of construction.
- (H) <u>Use of Off-Site Hook-Up Fees Received</u>: All funds collected by the Company as off-site facilities hook-up fees shall be deposited into a separate account and bear interest and shall be used solely for the purposes of paying for the costs of installation of off-site facilities, including repayment of loans obtained for the installation of off-site facilities.
- (I) Off-Site Facilities Hook-up Fee in Addition to On-site Facilities: The off-site facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities under a Collection Main Extension Agreement.
- (J) <u>Disposition of Excess Funds</u>: After all necessary and desirable off-site facilities are constructed utilizing funds collected pursuant to the off-site facilities hook-up fees, or if the off-site facilities hook-up fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.
- (K) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Off-Site Facilities Hook-Up Fee status report each January to Docket Control for the prior twelve (12) month period, beginning January 2015, until the hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the hook-up fee tariff, the amount each has paid, the physical location/address of the property in respect of which such fee was paid, the amount of money spent from the account, the amount of interest earned on the funds within the tariff account, and an itemization of all facilities that have been installed using the tariff funds during the 12 month period.

SHAPIRO LAW FIRM A Provincional Colombian, N

#### [Liberty Utilities Letterhead]

## Notice Required Pursuant to R14-2-602.B.4 Request for Certificate of Convenience and Necessity Extension Filed by Liberty Utilities (Litchfield Park Water & Sewer) Corp.

Pursuant to A.A.C. R14-2-602.B.4, Liberty Utilities (Litchfield Park Water & Sewer) Corp. ("Liberty") is providing this notice that Liberty has made application to the Arizona Corporation Commission ("ACC") to extend its Certificate of Convenience and Necessity to provide wastewater utility service to the Certificate of Convenience and Necessity Extension Area set forth below. The requested Extension Area is within five miles of your municipality's corporate limits. The specific notice requirements are as follows:

#### Applicant Name, Mailing Address and Telephone Number

Liberty Utilities (Litchfield Park Water & Sewer) Corp. 12725 W. Indian School Road, Suite D-101 Avondale, AZ 85392 623-935-9367

Date Application was Filed	
The CC&N Extension Application was filed on	, 2017

#### Type of Service to be Provided

Wastewater Service

#### A Description of Requested Service Area

Falcon Ridge is an approximately 55.3-acre property generally bound by Glendale Avenue on the north, Maryland Avenue on the south, 129th Avenue on the west and 127th Avenue on the east. Falcon View II is an approximately 9.84-acre property that is contiguous with the Falcon Ridge property with 127th Avenue as its western boundary and 126th Avenue as its eastern boundary. Both properties are within Section 11 of Township 2 North, Range 1 West of the Gila and Salt River Meridian.

### Commission Docket Number ACC Docket No. SW-01428A-17-\_\_\_\_

#### Instructions on How to Obtain a Copy of Application

The application is available for inspection during regular business hours at the offices of the Commission in Phoenix at 1200 West Washington Street, and at Liberty Utilities, 12725 W. Indian School Road, Suite D-101, Avondale, AZ 85392. In addition, Liberty will provide a printed copy or electronic copy upon request.

ADEQ AQUIFER PROTECTION PERMIT

SHAPIRO LAW FIRM

#### STATE OF ARIZONA AQUIFER PROTECTION PERMIT NO. P-100310 PLACE ID 815, LTF 53068

#### 1.0 AUTHORIZATION

In compliance with the provisions of Arizona Revised Statutes (A.R.S.) Title 49, Chapter 2, Articles I, 2 and 3, Arizona Administrative Code (A.A.C.) Title 18, Chapter 9, Articles 1 and 2, A.A.C. Title 18, Chapter 11, Article 4 and amendments thereto, and the conditions set forth in this permit, Litchfield Park Service Company is hereby authorized to operate Palm Valley Water Reclamation Facility, located in Goodyear, Arizona, in Maricopa County, over groundwater of the Phoenix Active Management Area, in Township 2 N, Range 1 W, Section 33, SE¼, SW¼, of the Gila and Salt River Baseline and Meridian.

This permit becomes effective on the date of the Water Quality Division Director's signature and shall be valid for the life of the facility (operational, closure, and post-closure periods) unless suspended or revoked pursuant to A.A.C. R18-9-A213. The permittee shall construct, operate and maintain the permitted facilities:

 Following all the conditions of this permit including the design and operational information documented or referenced below, and

2. Such that Aquifer Water Quality Standards (AWQS) are not violated at the applicable point(s) of compliance (POC) set forth below or if an AWQS for a pollutant has been exceeded in an aquifer at the time of permit issuance, that no additional degradation of the aquifer relative to that pollutant and as determined at the applicable POC occurs as a result of the discharge from the facility.

#### 2.0 SPECIFIC CONDITIONS [A.R.S. §§ 49-203(4), 49-241(A)]

#### 2.1 Facility / Site Description [A.R.S. § 49-243(K)(8)]

Litchfield Park Service Company (LPSCO) is authorized to operate Palm Valley Water Reclamation Facility (WRF), 5.1 million gallons per day (mgd) facility. The treatment process consists of two (2) bar screens, a vortex grit removal unit, an influent pump station, an influent equalization basin, three (3) sequential batch reactor (SBR) basins, a surge tank, four (4) cloth media disk filters, three (3) ultraviolet (UV) disinfection units, three (3) sludge holding tanks, two (2) centrifuges and two (2) rotary drum thickeners. The WRF is designed and constructed according to plans approved by ADEQ.

Effluent shall be reused for any allowable use under a valid reclaimed water permit (A.A.C. R18-9, Article 7), discharged to the Roosevelt Irrigation District (RID) canal under a valid AZPDES permit, or used for on-site process water applications (such as equipment cleaning). Discharges to the RID canal are exempt from APP requirements pursuant to A.R.S. § 49-250(B)(6) and (16). The Palm Valley WRF reclaimed water distribution system may also be connected to the reclaimed water distribution system for the City of Goodyear 157th Avenue WRF (APP No. P-101324), after the APP for the City of Goodyear 157th Avenue WRF has been amended to allow the connection (as per Section 3.0, Compliance Schedule). Once the reclaimed water distribution systems for the two facilities have been connected, reclaimed water from each of the facilities may be delivered to either facility's reclaimed water customers. Sludge shall be dewatered onsite by centrifuges and/or rotary drum thickeners. The dewatered sludge, including screenings, grit, and scum, shall be hauled off-site for management and disposal in accordance with state and federal regulations.

#### 4.1 mgd Facility

The existing 4:1 mgd WRF includes two (2) bar screens, three (3) SBR basins, three (3) cloth media disc filters, and two (2) UV disinfection units. Discharge monitoring for this stage of operation shall be conducted as per Section 4.2, Table IA-1. Upon completion of construction of the 5.1 mgd expansion, monitoring under Table IA-1 shall be discontinued as per Section 3.0, Compliance Schedule.

#### 5.1 mgd Expansion

The 5.1 mgd WRF shall include two (2) bar screens, three (3) SBR basins, four (4) cloth media disc filters, and three (3) UV disinfection units. In addition, two (2) of the three (3) existing SBR basins shall be retrofitted with new floating decenters and jet aeration systems, in order to expand the capacity of the facility without constructing additional SBR basins. Discharge monitoring for this stage of operation shall be conducted as per Section 4.2, Table IA-2.

#### Amendment Description

The purpose of this amendment is to increase the capacity of the WRF from 4.1 mgd to 5.1 mgd by adding a disc filter unit and a UV disinfection unit to the existing plant, to retrofit two (2) of the three (3) existing SBRs with new equipment to expand the capacity of the plant, and to allow connection between the Palm Valley WRF reclaimed water distribution system and the City of Goodyear 157th Avenue WRF reclaimed water distribution system.

The depth to groundwater is approximately 120 feet below land surface, and the direction of groundwater flow is toward the west-northwest.

All industrial hookups and other non-residential hookups to the treatment system shall be authorized according to the applicable federal, state or local regulations.

The site includes the following permitted discharging facility:

A CONTRACTOR OF THE REAL PROPERTY.	tra architerra and	are skodykuden sa
Palm Valley Water Reclamation Facility		112° 21' 35" W

#### Annual Registration Fee [A.R.S. § 49-242 and A.A.C. R18-14-104]

The Annual Registration Fee for this permit is established by A.R.S. § 49-242 and is payable to ADEQ each year. The design flow is 5.1 mgd.

#### Financial Capability [A.R.S. § 49-243(N) and A.A.C. R18-9-A203]

The permittee has demonstrated financial capability under A.R.S. § 49-243(N) and A.A.C. R.18-9-A203(C)(5). The permittee shall maintain financial capability throughout the life of the facility. Litchfield Park Service Company submitted a Letter of Credit in the amount of \$500,000,00 to ADBQ as a financial assurance mechanism.

### 2.2 Best Available Demonstrated Control Technology [A.R.S. § 49-243(B) and A.A.C. R18-9-A202(A)(5)]

The WRF shall be designed, constructed, operated, and maintained to meet the treatment performance criteria for new facilities as specified in A.A.C. R18-9-B204. The facility shall meet the performance requirement for industrial pre-treatment as per A.A.C. R18-9-B204(B)(6)(b).

#### 2.2.1 Engineering Design

This expansion of the WRF was designed and shall be constructed as per the design report stamped, dated, and signed (scaled) on August 17, 2010, by Brian P. McBride, P.E. (Professional Engineer) with McBride Engineering Solutions, Inc., and subsequent sealed submittals that served as additions to the design report.

#### 2.2.2 Site-specific Characteristics

Not applicable.

#### 2.2.3 Pre-operational Requirements

The permittee shall submit a signed, dated, and sealed Engineer's Certificate of Completion in a format approved by the Department per Compliance Schedule in Section 3.0. The Certificate shall be submitted to the Groundwater Section, and a copy shall be sent to the Water Quality Compliance Section.

#### 2.2.4 Operational Requirements

- The permittee shall maintain a copy of the up-to-date operations and maintenance manual at the WRF site at all times; the manual shall be available upon request during inspections by ADEQ personnel.
- The pollution control structures shall be inspected for the items listed in Section 4.2, Table III -Facility Inspection (Operational Monitoring).
- If any damage of the pollution control structures is identified during inspection, proper repair
  procedures shall be performed. All repair procedures and material(s) used shall be documented on
  the Self-Monitoring Report Form submitted quarterly to the ADEQ Water Quality Compliance
  Section:

#### 2.2.5 Reclaimed Water Classification

#### [A.A.C. R18-9-703(C)(2)(a), A.A.C. R18-11-303 through 307]

The freatment facility is rated as producing reclaimed water meeting the Class A+ Reclaimed Water Quality Standards (A.A.C. R18-11, Article 3), which may be used for any allowable Class A, B, or C use under a valid reclaimed water permit (A.A.C. R18-9, Article 7).

# 2.2.6 Certified Areawide Water Quality Management Plan Conformance [A.A.C., R18-9-A201(B)(6)(a)]

Facility operations must conform to the approved Certified Areawide Water Quality Management Plan according to the 208 consistency determination in place at the time of permit issuance.

### 2.3 Discharge Limitations [A.R.S. §§ 49-201(14), 49-243 and A.A.C. R18-9-A205(B)]

1. The permittee is authorized to operate the WRF with a maximum average monthly flow of 5.1 mgd.

The permittee shall notify all users that the materials authorized to be disposed of through the WRF are typical household sewage and pre-treated commercial wastewater and shall not include motor oil, gasoline, paints, varnishes, hazardous wastes, solvents, pesticides, fertilizers or other materials not generally associated with toilet flushing, food preparation, laundry facilities and personal hygiene.

3. The permittee shall operate and maintain all permitted facilities to prevent unauthorized discharges pursuant to A.R.S. § 49-201(12) resulting from failure or bypassing of applicable BADCT pollutant control technologies including liner failure, uncontrollable leakage, overtopping (e.g., exceeding the maximum storage capacity, defined as a fluid level exceeding the crest elevation of a permitted impoundment), of basins, lagoons, impoundments or sludge drying beds, berm breaches, accidental spills, or other unauthorized discharges.

4. Specific discharge limitations are listed in Section 4.2, Tables IA-1, IA-2 and IB.

#### 2.4 Points of Compliance (POCs) [A.R.S. § 49-244]

The POCs are established at the following designated locations:

POOT	aliante de la Policia Britancia.	annua.	Longitude
1	Theoretical POC located at the northwest corner of the WRF	33° 27' 56" N	112° 21' 54" W

Groundwater monitoring is not required at the point of compliance, except as a contingency action.

The Director may amend this permit to require the installation of a well and the initiation of groundwater monitoring at the POC; or to designate additional points of compliance, if information on groundwater gradients or groundwater usage indicates the need.

#### 2.5 Monitoring Requirements [A.R.S. § 49-243(K)(1), A.A.C. R18-9-A206(A)]

All monitoring required in this permit shall continue for the duration of the permit, regardless of the status of the facility. All sampling, preservation and holding times shall be in accordance with currently accepted standards of professional practice. Trip blanks, equipment blanks and duplicate samples shall also be obtained, and Chain-of-Custody procedures shall be followed, in accordance with currently accepted standards of professional practice. The permittee shall develop a site-specific Quality Management Plan (QMP) which describes the sample collection and analysis procedures to ensure that the result of work

<sup>&</sup>lt;sup>1</sup>Liner failure in a single-lined impoundment is any condition that would result in leakage exceeding 550 gallons per day per acre.

performed under this permit will satisfy the data quality objectives of the permit. The permittee shall be responsible for the quality and accuracy of all data required by this permit. If a third party collects or analyzes samples on behalf of the permittee, the permittee shall obtain a copy of the third party site-specific QMP. The permittee shall consult with the most recent version of the ADEQ QMP and Title 40, PART 136, of the Environmental Protection Agency's Code of Federal Regulations (CFR) for guidance in this regard. Copies of laboratory analyses and Chain-of-Custody forms shall be maintained at the permitted facility. Upon request, these documents shall be made immediately available for review by ADEQ personnel.

#### 2.5.1 Pre-operational Monitoring

Not applicable at the time of permit issuance.

#### 2.5.2 Routine Discharge Monitoring

The permittee shall monitor the effluent on a routine basis according to Section 4.2, Table IA-1or IA-2, as applicable. Representative samples of the effluent shall be collected downstream of the UV disinfection channel.

#### 2.5.3 Reclaimed Water Monitoring.

On a routine basis, the permittee shall monitor the reclaimed water parameters listed under Section 4.2, Table IB in addition to the routine discharge monitoring parameters listed in Section 4.2, Tables IA-1 and IA-2. Representative samples of the reclaimed water shall be collected downstream of the UV disinfection channel.

#### 2.5.4 Facility / Operational Monitoring

Operational monitoring inspections shall be conducted according to Section 4.2, Table III.

1. If any damage of the pollution control structures is identified during inspection, proper repair procedures shall be performed. All repair procedures and materials used shall be documented on the SMRF submitted quarterly to the ADEQ Water Quality Compliance Section, Data Unit. If none of the conditions occur, the report shall say "no event" for a particular reporting period. If the facility is not in operation, the permittee shall indicate this on the SMRF.

The permittee shall submit data required in Section 4.2; Table III regardless of the operating status of

the facility unless otherwise approved by the Department of allowed in this permit.

#### 2.5.5 Groundwater Monitoring and Sampling Protocols

Not applicable.

#### 2.5.6 Surface Water Monitoring and Sampling Protocols

Not applicable.

#### 2.5.7 Analytical Methodology

All samples collected for compliance monitoring shall be analyzed using Arizona state-approved methods. If no state-approved method exists, then any appropriate EPA-approved method shall be used. Regardless of the method used, the detection limits must be sufficient to determine compliance with the regulatory limits of the parameters specified in this permit. Analyses shall be performed by a laboratory licensed by the Arizona Department of Health Services, Office of Laboratory Licensure and Certification. For results to be considered valid, all analytical work shall meet quality control standards specified in the approved methods. A list of state-certified laboratories in Arizona can be obtained at the address below:

Arizona Department of Health Services
Office of Laboratory Licensure and Certification
250 North 17<sup>th</sup> Avenue
Phoenix, Arizona 85007
Phone: (602) 364-0720

#### 2.5.8. Installation and Maintenance of Monitoring Equipment

Monitoring equipment required by this permit shall be installed and maintained so that representative samples required by the permit can be collected. If new groundwater wells are determined to be necessary, the construction details shall be submitted to the ADEQ Groundwater Section for approval prior to installation, and the permit shall be amended to include any new monitoring points.

# 2.6 Contingency Plan Requirements [A.R.S. § 49-243(K)(3), (K)(7) and A.A.C. R18-9-A204 and R18-9-A205]

#### 2.6.1 General Contingency Plan Requirements

At least one copy of this permit and the approved contingency and emergency response plan(s) submitted in the application shall be maintained at the location where day-to-day decisions regarding the operation of the facility are made. The permittee shall be aware of and follow the contingency and emergency plans.

Any AL exceedance, violation of a DL, AQL, or other permit condition shall be reported to ADEQ following the reporting requirements in Section 2.7.3.

Some contingency actions involve verification sampling. Verification sampling shall consist of the first follow-up sample collected from a location that previously indicated a violation or the exceedance of an AL. Collection and analysis of the verification sample shall use the same protocols and test methods to analyze for the pollutant or pollutants that exceeded an AL or violated an AQL. The permittee is subject to enforcement action for the failure to comply with any contingency actions in this permit. Where verification sampling is specified in this permit, it is the option of the permittee to perform such sampling. If verification sampling is not conducted within the timeframe allotted, ADEQ and the permittee shall presume the initial sampling result to be confirmed as if verification sampling had been conducted. The permittee is responsible for compliance with contingency plans relating to the exceedance of an AL or violation of a DL, AQL, or any other permit condition.

#### 2.6.2 Exceeding of Alert Levels/Performance Levels

#### 2.6.2.1 Exceeding of Performance Levels Set for Operational Conditions

- If an operational performance level (PL) set in Section 4.2, Table III has been exceeded the permittee shall:
  - Notify the ADEQ Water Quality Compliance Section within five days of becoming aware of the exceedance.
  - b. Submit a written report within 30 days after becoming aware of the exceedance. The report shall document all of the following:
    - (1) A description of the exceedance and its cause;
    - the period of the exceedance, including exact date(s) and time(s), if known, and the anticipated time period during which the exceedance is expected to continue;
    - any action taken or planned to mitigate the effects of the exceedance or spill, or to eliminate or prevent recurrence of the exceedance or spill;

- (4) any monitoring activity or other information which indicates that any pollutants would be reasonably expected to cause a violation of an AWQS; and
- (5) any malfunction or failure of pollution control devices or other equipment or process.
- The facility is no longer on alert status once the operational indicator no longer indicates that
  a PL is being exceeded. The permittee shall, however, complete all tasks necessary to return
  the facility to its pre-alert operating condition.

#### 2.6.2.2 Exceeding of Alert Levels (ALs) Set for Discharge Monitoring

- If an AL set in Section 4.2, Tables 1A-1 and 1A-2 has been exceeded, the permittee shall immediately investigate to determine the cause. The investigation shall include the following:
  - Inspection, testing, and assessment of the current condition of all freatment or pollutant discharge control systems that may have contributed to the exceedance;
  - Review of recent process logs, reports, and other operational control information to identify any unusual occurrences; and
  - c. If the investigation procedures indicated in (a) and (b) above fail to reveal the cause of the exceedance, the permittee shall sample individual waste streams composing the wastewater for the parameters in question, if necessary to identify the cause of the exceedance.
- 2. The permittee shall initiate actions identified in the approved contingency plan and specific contingency measures identified in Section 2.6 to resolve any problems identified by the investigation which may have led to an AL exceedance. To implement any other corrective action the permittee shall obtain prior approval from ADEQ according to Section 2.6.6.
- 3. Within 30 days of an AL exceedance, the permittee shall submit the laboratory results to the ADEQ Water Quality Compliance Section, Data Unit, along with a summary of the findings of the investigation, the cause of the exceedance, and actions taken to resolve the problem.
- Upon review of the submitted report, the Department may amend the permit to require
  additional monitoring, increased frequency of monitoring, amendments to permit conditions
  or other actions.

#### 2.6.2.2.1 Exceeding Permit Flow Limit

- If the AL for average monthly flow in Section 4.2, Tables IA-1 or IA-2 has been
  exceeded, the permittee shall submit an application for an APP amendment to
  expand the WRF or submit a report detailing the reasons that expansion is not
  necessary.
- Acceptance of the report instead of an application for expansion requires ADEQ approval.

#### 2.6.3 Discharge Limit Violation

- If a DL set in Section 4.2, Tables 1A-1, IA-2, or IB has been violated, the permittee shall immediately investigate to determine the cause of the violation. The investigation shall include the following:
  - Inspection, testing, and assessment of the current condition of all treatment or pollutant discharge control systems that may have contributed to the violation;
  - Review of recent process logs, reports, and other operational control information to identify any unusual occurrences; and

c. If the investigation procedures indicated in (a) and (b) above fail to reveal the cause of the violation, the permittee shall sample individual waste streams composing the wastewater for the parameters in violation, if necessary to identify the cause of the violation.

The permittee also shall submit a report according to Section 2.7.3, which includes a summary of the findings of the investigation, the cause of the violation, and actions taken to resolve the problem. The permittee shall consider and ADEQ may require corrective action that may include control of the source of discharge, cleanup of affected soil, surface water or groundwater, and mitigation of the impact of pollutants on existing uses of the aquifer. Corrective actions shall either be specifically identified in this permit, included in an ADEQ-approved contingency plan, or separately approved according to Section 2.6.6.

Upon review of the submitted report, the Department may amend the permit to require additional monitoring, increased frequency of monitoring, amendments to permit conditions, or other actions.

#### 2.6.4 Aquifer Quality Limit Violation

Not applicable - Groundwater monitoring is not required under this permit.

2.6.5 Emergency Response and Contingency Requirements for Unauthorized Discharges pursuant to A.R.S. § 49-201(12) and pursuant to A.R.S. § 49-241

#### 2.6.5.1 Duty to Respond-

The permittee shall act immediately to correct any condition resulting from a discharge pursuant to A.R.S. § 49-201(12) if that condition could pose an imminent and substantial endangerment to public health or the environment.

#### 2.6.5.2 Discharge of Hazardous Substances or Toxic Pollutants:

In the event of any unauthorized discharge pursuant to A.R.S. § 49-201(12) of suspected hazardous substances (A.R.S. § 49-201(19)) or toxic pollutants (A.R.S. § 49-243(I)) on the facility site, the permittee shall promptly isolate the area and attempt to identify the discharged material. The permittee shall record information, including name, nature of exposure and follow-up medical treatment, if necessary, on persons who may have been exposed during the incident. The permittee shall notify the ADEQ Water Quality Compliance Section within 24 hours of discovering the discharge of hazardous material which (a) has the potential to cause an AWQS or AQL exceedance, or (b) could pose an endangerment to public health or the environment.

#### 2.6.5.3 Discharge of Non-hazardous Materials

In the event of any unauthorized discharge pursuant to A.R.S. § 49-201(12) of non-hazardous materials from the facility, the permittee shall promptly attempt to cease the discharge and isolate the discharged material. Discharged material shall be removed and the site cleaned up as soon as possible. The permittee shall notify the ADEQ Water Quality Compliance Section within 24 hours of discovering the discharge of non-hazardous material which (a) has the potential to cause an AQL exceedance, or (b) could pose an endangerment to public health or the environment.

#### 2.6.5.4 Reporting Requirements

The permittee shall submit a written report for any unauthorized discharges reported under Sections 2.6.5.2 and 2.6.5.3 to the ADEQ Water Quality Compliance Section within 30 days of the discharge or as required by subsequent ADEQ action. The report shall summarize the event, including any human exposure, and facility response activities and include all information specified in Section 2.7.3. If a notice is issued by ADEQ subsequent to the discharge notification, any additional information requested in the notice shall also be submitted within the time frame

specified in the notice. Upon review of the submitted report, ADEQ may require additional monitoring or corrective actions.

#### 2.6.6 Corrective Actions

Specific contingency measures identified in Section 2.6 have already been approved by ADEQ and do not require written approval to implement.

With the exception of emergency response actions taken under Section 2.6.5, the permittee shall obtain written approval from the Groundwater Section prior to implementing a corrective action to accomplish any of the following goals in response to exceedance of an AL or violation of an AQL, DL, or other permit condition:

- I. Control of the source of an unauthorized discharge;
- 2. Soil cleanup;
- 3. Cleanup of affected surface waters;
- 4. Cleanup of affected parts of the aquifer;
- 5. Mitigation to limit the impact of pollutants on existing uses of the aquifer.

Within 30 days of completion of any corrective action, the operator shall submit to the ADEQ Water Quality Compliance Section a written report describing the causes, impacts, and actions taken to resolve the problem.

# 2.7 Reporting and Recordkeeping Requirements [A.R.S. § 49-243(K)(2) and A.A.C. R18-9-A206(B) and R18-9-A207

### 2.7.1 Self-monitoring Report Form

- The permittee shall complete the SMRFs provided by ADEQ, and submit them to the Water Quality Compliance Section, Data Unit.
- The permittee shall complete the SMRF to the extent that the information reported may be entered
  on the form. If no information is required during a reporting period, the permittee shall enter "not
  required" on the SMRF and submit the report to ADEQ. The permittee shall use the format devised
  by ADEQ.
- The tables contained in Section 4.0 list the parameters to be monitored and the frequency for reporting results for compliance monitoring. Analytical methods shall be recorded on the SMRFs.
- In addition to the SMRF, the information contained in A.A.C. R18-9-A206(B)(1) shall be included for exceeding an AL or violation of an AQL, DL, or any other permit condition being reported in the current reporting period.

#### 2.7.2 Operation Inspection / Log Book Recordkeeping

A signed copy of this permit shall be maintained at all times at the location where day-to-day decisions regarding the operation of the facility are made. A log book (paper copies, forms, or electronic data) of the inspections and measurements required by this permit shall be maintained at the location where day-to-day decisions are made regarding the operation of the facility. The log book shall be retained for ten years from the date of each inspection, and upon request, the permit and the log book shall be made immediately available for review by ADEQ personnel. The information in the log book shall include, but not be limited to, the following information as applicable:

- 1. Name of inspector;
- 2. Date and shift inspection was conducted;
- 3. Condition of applicable facility components;
- 4. Any damage or malfunction, and the date and time any repairs were performed;
- 5. Documentation of sampling date and time; and
- 6. Any other information required by this permit to be entered in the log book.

Monitoring records for each measurement shall comply with A.A.C. R18-9-A206(B)(2).

#### 2.7.3 Permit Violation and Alert Level Status Reporting

- The permittee shall notify the Water Quality Compliance Section in writing (by mail or by fax see Section 2.7.5) within five days (except as provided in Section 2.6.5) of becoming aware of a violation of any permit condition, discharge limitation, or of an AL exceedance.
- The permittee shall submit a written report to the Water Quality Compliance Section within 30 days
  of becoming aware of the violation of any permit condition or discharge limitation. The report shall
  document all of the following:
  - Identification and description of the permit condition for which there has been a violation and a description of the cause;
  - The period of violation including exact date(s) and time(s), if known, and the anticipated time
    period during which the violation is expected to continue;
  - Any corrective action taken or planned to mitigate the effects of the violation, or to eliminate or prevent a recurrence of the violation;
  - Any monitoring activity or other information which indicates that any pollutants would be reasonably expected to cause a violation of an AWQS;
  - e. Proposed changes to the monitoring which include changes in constituents or increased frequency of monitoring; and
  - Description of any malfunction or failure of pollution control devices or other equipment or processes.

#### 2.7.4 Operational, Other or Miscellaneous Reporting

The permittee shall complete the SMRF provided by the Department to reflect facility inspection requirements designated in Section 4.2, Table III and submit to the ADEQ Water Quality Compliance Section, Data Unit quarterly along with other reports required by this permit. Facility inspection reports shall be submitted no less frequently than quarterly, regardless of operational status.

If the treatment facility is classified for reclaimed water under this permit, the permittee shall submit the reclaimed water monitoring results as required in Section 4.2, Table IB and flow volumes to any of the following in accordance with A.A.C. R18-9-703(C)(2)(c):

- Any reclaimed water agent who has contracted for delivery of reclaimed water from the permittee;
- 2. Any end user who has not waived interest in receiving this information.

#### 2.7.5 Reporting Location

All SMRFs shall be submitted to:

Arizona Department of Environmental Quality Water Quality Compliance Section, Data Unit Mail Code 5415B-1 1110 West Washington Street Phoenix, Arizona 85007 Phone (602) 771-4681 All documents required by this permit to be submitted to the Water Quality Compliance Section shall be directed to the following address:

Arizona Department of Environmental Quality Water Quality Compliance Section
Mail Code 5415B-1

1110 West Washington Street
Phoenix, Arizona 85007
Phone (602) 771-4497
Fax (602) 771-4505

All documents required by this permit to be submitted to the Groundwater Section shall be directed to:

Arizona Department of Environmental Quality Groundwater Section Mail Code 5415B-3 1110. West Washington Street Phoenix, Arizona 85007 Phone (602) 771-4428

#### 2.7.6 Reporting Deadline

The following table lists the quarterly report due dates2:

de compagniture en oppositioned de conjunt des les con-	The Followick Representation of the
January-March	April 30.
April-June	July 30
July-September'	October 30
October-December	January 30

The following table lists the semi-annual and annual report due dates:

Water 24 options complete to a	nejokanoby: (#18-194)
Semi-annual: January-June	July 30
Semi-annual: July-December	January 30
Annual: January-December	 January 30

#### 2.7.7 Changes to Facility Information in Section 1.0

The Groundwater Section and the Water Quality Compliance Section shall be notified within ten days of any change of facility information including Facility Name, Permittee Name, Mailing or Street Address, Facility Contact Person, or Emergency Telephone Number.

#### 2.8 Temporary Cessation [A.R.S. § 49-243(K)(8) and A.A.C. R18-9-A209(A)]

The permittee shall give written notice to the Water Quality Compliance Section before ceasing operation of the facility for a period of 60 days or greater. The permittee shall take the following measures upon temporary cessation:

A post-mark date no later than the due date is considered meeting the due date requirements under this Section.

- If applicable, direct the wastewater flows from the facility to another state-approved wastewater treatment facility;
- 2. Correct the problem that caused the temporary cessation of the facility; and
- Notify the ADEQ Water Quality Compliance Section with a monthly facility status report describing the
  activities conducted on the treatment facility to correct the problem.

At the time of notification the permittee shall submit for ADEQ approval a plan for maintenance of discharge control systems and for monitoring during the period of temporary cessation. Immediately following ADEQ approval, the permittee shall implement the approved plan. If necessary, ADEQ shall amend permit conditions to incorporate conditions to address temporary cessation. During the period of temporary cessation, the permittee shall provide written notice to the Water Quality Compliance Section of the operational status of the facility every three years. If the permittee intends to permanently cease operation of any facility, the permittee shall submit closure notification, as set forth in Section 2.9 below.

#### . 2.9 Closure [A.R.S. §§ 49-243(K)(6), 49-252 and A.A.C. R18-9-A209(B)]

For a facility addressed under this permit, the permittee shall give written notice of closure to the Water Quality Compliance Section of the intent to cease operation without resuming activity for which the facility was designed or operated.

#### 2.9.1 Closure Plan

Within 90 days following notification of closure, the permittee shall submit for approval to the Groundwater Section a closure plan which meets the requirements of A.R.S. § 49-252 and A.A.C. R18-9-A209(B)(3).

If the closure plan achieves clean-closure immediately, ADEQ shall issue a letter of approval to the permittee. If the closure plan contains a schedule for bringing the facility to a clean-closure configuration at a future date, ADEQ may incorporate any part of the schedule as an amendment to this permit.

#### 2.9.2 Closure Completion

Upon completion of closure activities, the permittee shall give written notice to the Groundwater Section indicating that the approved closure plan has been implemented fully and providing supporting documentation to demonstrate that clean-closure has been achieved (soil sample results, verification sampling results, groundwater data, as applicable). If clean-closure has been achieved, ADEQ shall issue a letter of approval to the permittee at that time. If any of the following conditions apply, the permittee shall follow the terms of post-closure stated in this permit:

- Clean-closure cannot be achieved at the time of closure notification or within one year thereafter under a diligent schedule of closure actions;
- 2. Further action is necessary to keep the facility in compliance with AWQS at the applicable POC;
- Continued action is required to verify that the closure design has eliminated discharge to the extent intended:
- 4. Remediation or mitigation measures are necessary to achieve compliance with Title 49, Ch. 2; and
- 5. Further action is necessary to meet property use restrictions.

#### 2.10 Post-closure [A.R.S. §§ 49-243(K)(6), 49-252 and A.A.C. R18-9 A209(C)]

Post-closure requirements shall be established based on a review of facility closure actions and will be subject to review and approval by the Groundwater Section.

In the event clean-closure cannot be achieved pursuant to A.R.S. § 49-252, the permittee shall submit for approval to the Groundwater Section a post-closure plan that addresses post-closure maintenance and monitoring actions at the facility. The post-closure plan shall meet all requirements of A.R.S. §§ 49-201(30)

and 49-252 and A.A.C. R18-9-A209(C). Upon approval of the post-closure plan, this permit shall be amended or a new permit shall be issued to incorporate all post-closure controls and monitoring activities of the post-closure plan.

# 2.10.1 Post-closure Plan

A specific post-closure plan may be required upon the review of the closure plan.

### 2.10.2 Post-closure Completion

Not required at the time of permit issuance.

### 3.0 COMPLIANCE SCHEDULE [A.R.S. § 49-243(K)(5) and A.A.C. R[8-9-A208]

For each compliance schedule item listed below, the permittee shall submit the required information, including a cover letter that lists the compliance schedule items, to the Groundwater Section. A copy of the cover letter must also be submitted to the ADEQ Water Quality Compliance Section.

The permittee shall submit a signed, dated, and scaled Engineer's Certificate of Completion for the 5.1 mgd expansion in a format approved by the Department that confirms that the facility is constructed according to the Department-approved design report or plans and specifications, as applicable.	Within 90 days after completion of construction of the 5.1 mgd expansion.
The permittee may cease monitoring as per Section 4.2, Table IA-1, begin monitoring as per Section 4.2, Table IA-2, and notify the Water Quality Compliance Section, Data Unit, of the change in monitoring.	Within 30 days after submitting the Engineer's Certificate of Completion for the 5.1 mgd expansion
The permittee shall notify ADEQ of commencement of discharge from the 5.1 mgd WRF.	Within 15 days after commencement of monitoring under Section 4.2, Table 1A-2:
The permittee may apply for a permit amendment to remove Section 4.2, Table IA-1.	After commencement of monitoring under Section 4.2, Table IA-2.
The permittee may connect the Palm Valley WRF reclaimed water distribution system to the City of Goodyear 157th Avenue WRF reclaimed water distribution system.	After a permit amendment is issued to the City of Goodyear allowing the City of Goodyear 157th Avenue WRF (APP No. P-101324) to connect its reclaimed water distribution system to the Palm Valley WRF reclaimed water distribution system.

#### 4.0 TABLES OF MONITORING REQUIREMENTS

#### 4.1 PRE-OPERATIONAL MONITORING (OR CONSTRUCTION REQUIREMENTS)

Not applicable.

#### 4.0 TABLES OF MONITORING REQUIREMENTS

#### 4.2 COMPLIANCE (or OPERATIONAL) MONITORING

<sup>&</sup>lt;sup>3</sup>Monitoring under Table IA-1 is no longer required after the commencement of monitoring under Table IA-2.

AL = Alert Level

<sup>&</sup>lt;sup>5</sup>DL = Discharge Limit

<sup>&</sup>lt;sup>6</sup>Total flow is the total of flows to on-site process use, reclaimed water, discharge to the RID canal, and the City of Goodyear 157<sup>th</sup> Avenue WRF, and flow from the City of Goodyear 157<sup>th</sup> Avenue WRF.

Flow shall be measured using a continuous recording flow meter which totals the flow daily.

<sup>&</sup>lt;sup>8</sup>NE = Not Established = Monitoring is required but no limits are specified.

<sup>9</sup>mgd = million gallons per day

<sup>10</sup> Monthly average of daily flow values.

<sup>&</sup>lt;sup>11</sup>CFU = Colony Forming Units / 100 ml sample. MPN = Most Probable Number / 100 ml sample. For CFU, a value of <1.0 shall be considered to be non-detect. For MPN, a value of <2.2 shall be considered to be non-detect.

<sup>&</sup>lt;sup>12</sup>Week means a seven-day period starting on Sunday and ending on the following Saturday.

<sup>&</sup>lt;sup>13</sup>If at least four (4) of seven (7) samples in a week are non-detect, report "yes" in the appropriate space on the SMRF (indicating that the standard has been met). If at least four (4) of seven (7) samples in a week have detections of E. coli, report "no" in the appropriate space on the SMRF (indicating that the standard has not been met).

<sup>14</sup> Total Nitrogen = Nitrate as N + Nitrite as N + Total Kjeldahl Nitrogen

<sup>15</sup> mg/l = milligrams per liter

<sup>16</sup>A five-month geometric mean of the results of the five (5) most recent samples

#### 5.0 REFERENCES AND PERTINENT INFORMATION

The terms and conditions set forth in this permit have been developed based upon the information contained in the following, which are on file with the Department:

1. APP Application, dated: August 24, 2010

Final Engineering Report, dated: March 24, 2011

3. Public Notice, dated: January 26, 2012

Public Hearing, dated: Not applicable.

Responsiveness Summary, dated: Not applicable.

#### 6.0 NOTIFICATION PROVISIONS

#### 6.1 Annual Registration Fees

The permittee is notified of the obligation to pay an Annual Registration Fee to ADEQ. The Annual Registration Fee is based upon the amount of daily influent or discharge of pollutants in gallons-per-day (gpd) as established by A.R.S. § 49-242.

#### 6.2 Duty to Comply [A.R.S. §§ 49-221 through 263]

The permittee is notified of the obligation to comply with all conditions of this permit and all applicable provisions of Title 49, Chapter 2, Articles 1, 2 and 3 of the Arizona Revised Statutes, Title 18, Chapter 9, Articles I through 4, and Title 18, Chapter 11, Article 4 of the Arizona Administrative Code. Any permit non-compliance constitutes a violation and is grounds for an enforcement action pursuant to Title 49, Chapter 2, Article 4 or permit amendment, suspension, or revocation.

#### 6.3 Duty to Provide Information [A.R.S. §§ 49-243(K)(2) and 49-243(K)(8)]

The permittee shall furnish to the Director, or an authorized representative; within a time specified, any information which the Director may request to determine whether cause exists for amending or terminating this permit, or to determine compliance with this permit. The permittee shall also furnish to the Director, upon request, copies of records required to be kept by this permit.

#### 6.4 Compliance with Aquifer Water Quality Standards [A.R.S. §§ 49-243(B)(2) and 49-243(B)(3)]

The permittee shall not cause or contribute to a violation of an AWQS at the applicable POC for the facility. Where, at the time of issuance of the permit, an aquifer already exceeds an AWQS for a pollutant, the permittee shall not discharge that pollutant so as to further degrade, at the applicable point of compliance for the facility, the water quality of any aquifer for that pollutant.

# 6.5 Technical and Financial Capability [A.R.S. §§ 49-243(K)(8) and 49-243(N) and A.A.C. R18-9-A202(B) and R18-9-A203(E) and (F)]

The permittee shall have and maintain the technical and financial capability necessary to fully carry out the terms and conditions of this permit. Any bond, insurance policy, trust fund, or other financial assurance mechanism provided as a demonstration of financial capability in the permit application, pursuant to A.A.C. R18-9-A203(D), shall be in effect prior to any discharge authorized by this permit and shall remain in effect for the duration of the permit.

#### 6.6 Reporting of Bankruptcy or Environmental Enforcement [A.A.C. R18-9-A207(C)]

The permittee shall notify the Director within five days after the occurrence of any one of the following:

- 1. The filing of bankruptcy by the permittee; or
- The entry of any order or judgment not issued by the Director against the permittee for the enforcement of any environmental protection statute or rule.

#### 6.7 Monitoring and Records [A.R.S. § 49-243(K)(8) and A.A.C. R18-9-A206]

The permittee shall conduct any monitoring activity necessary to assure compliance with this permit, with the applicable water quality standards established pursuant to A.R.S. §§ 49-221 and 49-223 and §§ 49-241 through 49-252.

# 6.8 Inspection and Entry [A.R.S. §§ 4]-1009, 49-203(B), and 49-243(K)(8)]

In accordance with A.R.S. §§ 41-1009 and 49-203(B), the permittee shall allow the Director, of an authorized representative, upon the presentation of credentials and other documents as may be required by law, to enter and inspect the facility as reasonably necessary to ensure compliance with Title 49. Chapter 2. Article 3 of the Arizona Revised Statutes, and Title 18, Chapter 9, Articles Lubrough 4 of the Arizona Administrative Code and the lerms and conditions of this permit.

# 6.9 Duty to Modify (A.R.S. § 49-243(K)(8) and A.A.C. R18-9-A211]

The permittee shall apply for and receive a written amendment before deviating from any of the designs or operational practices authorized by this permit.

### 6.10 Permit Action! Amendment, Transfer, Suspension, and Revocation [A.R.S. \$5, 49-201, 49-241 through 25]; A.A.G. R18-9-A211, R18-9-A212 and R18-9-A213]

This permit may be amended, transferred, suspended, or fevoked for cause, under the rules of the Department. The permittee shall notify the Groundwater Section in writing within, 13 days after any change in the owner or operator of the facility. The notification shall state the permit number, the name of the facility, the date of property transfer, and the hame, address, and phone number where the new owner or operator can be reached. The operator shall advise the new owner or operators of the terms of this permit and the need for permit transfer in accordance with the rules.

## 7.0 ADDITIONAL PERMIT CONDITIONS

## 7.1 Other information [A,R.S. § 49-243(K)(8)]

Where the permittee becomes aware that if failed to submit any relevant facts in a permit application, or submitted incorrect information in a permit application or in any report to the Director, the permittee shall promptly submit the correct facts or information.

# 7.2. Severability [A.R.S. §§ 49-201, 49-241 through 251, A.A.C. R18-9-A211, R18-9-A212 and R18-9-

The provisions of this permit are severable, and if any provision of this permit, or the application of any provision of this permit to any circumstance is held invalid, the application of such provision to other circumstances, and the remainder of this permit, shall not be affected thereby. The filing of a request by the permittee for a permit action does not stay or suspend the effectiveness of any existing permit condition.

#### 7.3 Permit Transfer

This permit may not be transferred to any other person except after notice to and approval of the transfer by the Department. No transfer shall be approved until the applicant complies with all transfer requirements as specified in A.A.C. R18-9-A212(B) and (C).

SHAPIRO LAW FIRM A PROTESS ONS. COMMISSION

### 

#### AFFIDAVIT OF STEVE CARLSON

Steve Carlson, being duly sworn, deposes and says:

- 1. I am a resident of Maricopa County, over 18 years of age, and make this affidavit based on my own personal knowledge.
- 2. I am the Development Services Manager for Liberty Utilities (Litchfield Park Water and Sewer) Corp. ("Liberty").
- 3. The Application for an Extension of Liberty's existing wastewater CC&N, to which this affidavit is attached, was prepared under my supervision.

Steve Carlson

SUBSCRIBED and sworn to before me this 21 day of April, 2017.

Vuginia P. Covarrubias
Notati Public

My Commission Expires:

April 13, 2018
