Open Meeting  
Phoenix, Arizona

**BY THE COMMISSION:**

Pursuant to A.R.S. § 40-360, *et seq*, after due consideration of all relevant matters, the Arizona Corporation Commission ("Commission") finds and concludes that the Certificate of Environmental Compatibility ("CEC") issued by the Arizona Power Plant and Transmission Line Siting Committee ("Siting Committee") is hereby approved as granted by this Order.

The Commission, in reaching its decision, has balanced all relevant matters in the broad public interest, including the need for an adequate, economical and reliable supply of electric power with the desire to minimize the effect thereof on the environment and ecology of this state, and finds that granting the Project a CEC is in the public interest.

1 The Commission further finds and concludes that in balancing the broad public interest in this  
2 matter:

- 3 1. The Project is in the public interest because it aids the state in meeting the need for an  
4 adequate, economical, and reliable supply of electric power.
- 5 2. In balancing the need for the Project with its effect on the environment and ecology of  
6 the state, the conditions placed on the CEC effectively minimize its impact on the  
7 environment and ecology of the state.
- 8 3. The conditions placed on the CEC resolve matters concerning the need for the Project  
9 and its impact on the environment and ecology of the state raised during the course of  
10 proceedings, and as such, serve as the findings on the matters raised.
- 11 4. In light of these conditions, the balancing in the broad public interest results in favor  
12 of granting the CEC.

Open Meeting  
Phoenix, Arizona

**BY THE COMMISSION:**

Pursuant to A.R.S. § 40-360, *et seq.*, after due consideration of all relevant matters, the Arizona Corporation Commission ("Commission") finds and concludes that the Certificate of Environmental Compatibility ("CEC") issued by the Arizona Power Plant and Transmission Line Siting Committee ("Siting Committee") is hereby approved as modified by this Order.

The Commission, in reaching its decision, has balanced all relevant matters in the broad public interest, including the need for an adequate, economical and reliable supply of electric power with the desire to minimize the effect thereof on the environment and ecology of this state, and finds

1 that the CEC for the above-captioned application for siting approval is in the public interest as  
2 modified by this Order.

3 The Commission modifies the CEC to add the following conditions:

4 The Commission further finds and concludes that in balancing the broad public interest in this  
5 matter:

- 6 1. The Project is in the public interest because it aids the state in meeting the need for an  
7 adequate, economical and reliable supply of electric power.
- 8 2. In balancing the need for the Project with its effect on the environment and ecology of  
9 the state, the conditions placed on the CEC as modified by the Commission effectively  
10 minimize its impact on the environment and ecology of the state.
- 11 3. The conditions placed on the CEC as modified by the Commission resolve matters

*(Sample Form of Order for the Convenience of the  
Commission to Use if the Commission Determines it is in  
the Public Interest to Deny the Project the CEC Issued by  
the Siting Committee's Decision.)*

Open Meeting  
Phoenix, Arizona

**BY THE COMMISSION:**

Pursuant to A.R.S. § 40-360, *et seq.*, after due consideration of all relevant matters, the Arizona Corporation Commission ("Commission") finds and concludes that the above-captioned Application for a Certificate of Environmental Compatibility ("CEC") for siting approval is not in the public interest and therefore the CEC issued by the Arizona Power Plant and Transmission Line Siting Committee ("Siting Committee") is hereby denied by this Order.

The Commission, in reaching its decision, has balanced all relevant matters in the broad public interest, including the need for an adequate, economical and reliable supply of electric power

1 with the desire to minimize the effect thereof on the environment and ecology of this state, and finds  
2 that granting the Project a CEC is not in the public interest.

3 The Commission finds and concludes that in balancing the broad public interest in this matter:

- 4 1. The evidence in the record is not sufficient to weigh the balancing of the public  
5 interest in favor of granting a CEC in this matter when all the factors set forth in  
6 A.R.S. § 40-360.06 are considered along with need for an adequate economical, and  
7 reliable supply of electric power.
- 8 2. The conditions placed upon the CEC are not sufficient to weigh the balancing of the  
9 public interest in favor of granting a CEC in this matter when all the factors set forth in  
10 A.R.S. § 40-360.06 are considered along with the need for an adequate, economical,  
11 and reliable supply of electric power.
- 12 3. The record compels balancing the competing public interests in favor of protection of  
13 the environment and ecology of the State of Arizona by denying Applicant a  
14 Certificate of Environmental Compatibility.
- 15 4. The CEC issued by the Siting Committee should not be confirmed and approved by  
16 the Commission.
- 17 5. The Commission's findings 1 through 4 above serve as the Commission's findings of  
18 fact and conclusions of law in reaching its decision.

19 Therefore, the Commission further finds and concludes that the CEC issued by the Siting  
20 Committee is hereby denied by this Order; and, the above-captioned Application for a CEC is hereby  
21 denied by this Order.
