RE: Docket No. E-01345A-07-0663
Docket No. T-01846B-07-0663
Hillcrest Bay Mobile Manor

DOCKETED BY *MM*

Dear Sirs:

We are very much in favor of the underground conversion for our neighborhood, and will gladly pay our own costs connected with our home's connection.

The current overhead wiring and poles are unsightly and our entire neighborhood is on a mountainside and the streets and homes are staggered so that almost everyone has a grand view of Lake Havasu. The poles and wires strung everywhere spoil the effect of our magnificent views.

We hope very much that the Corporation Commission will approve the joint petition of APS and Verizon.

Not only would our magnificent views of the lake and Bill Williams Wildlife Refuge and surrounding mountains be greatly improved, but also the over appearance and value of the homes in our neighborhood.

A recent episode of a pole and lines falling during the night and arcing and being such a dangerous condition, only proves that the current wiring system is in dire need of updating and change.

Thank you for your consideration of our support of the pending petition.
